Informant advised that [redacted] makes his hangout at a hotel in Manhattan Beach, Brooklyn, New York.

JOSEPH COLOMBO aka
AR
NY 92-1965

b2 -1

[redacted] during recent past has advised he has held a number of highly secretive meetings with COLOMBO, primarily

[REDACTED]

in regard to the recent disappearances of SALVATORE D'AMBROSIO (NY 92-2673) and FRED DE LUCCIA (NY 92-2674) (both members of COLOMBO "family"). Informant stated COLOMBO at first was of opinion that D'AMBROSIO and DE LUCCIA had been arrested and being held incommunicado, but during evening, 12/2/69, COLOMBO advised he was confident that both had been killed and their bodies buried. Informant advised he is of opinion that DE LUCCIA and D'AMBROSIO were responsible for "hits" on FRANKIE MARI and MIKE ADAMO and their disappearances are retaliatory.

NYO during 12/1 and 2/69, has been interviewing relatives of DE LUCCIA and D'AMBROSIO and all admit they have not heard from either above during recent past and could not explain their absence.

Informant continued during recent past COLOMBO has been leaning heavily on him giving informant two "hit" contracts and kidnapping contract which informant has been able to defer based on logical arguments which COLOMBO agreed was best course of action. On 12/1/69, secretive meet with COLOMBO, COLOMBO confided that his "consigliere" BENEDETTO D'ALESSANDRO (NY 92-3191) is retiring and COLOMBO asked who informant would suggest as successor. Informant said his immediate reaction would have been to suggest an old-time "yes man" such as RICHARD FUSCO or SEBASTIAN ALOI but feeling COLOMBO might be testing informant's loyalty and knowing COLOMBO was aware of his close friendship with NICHOLAS BIANCO, informant suggested BIANCO and as he anticipated COLOMBO disagreed saying he was too young. Informant feels, however, his ploy was successful and that COLOMBO will continue to seek informant's advice and services.

BENEDETTO D'ALESSANDRO aka

NY 92-3191

On 12/7/69, informant advised that JOSEPH YACOVELLI was named to replace subject as "consigliere" of the COLOMBO "family".

b2 -2

b2 -1

[redacted] advised on 12/11/69, that as a result of the continued FBI inquiries into the disappearance of COLOMBO members, SALVATORE D'AMBROSIO and FRED DE LUCCIA, three weeks ago, COLOMBO has expressed deep concern and continued uncertainty regarding their fate. COLOMBO has indicated that there would be a meeting of all high ranking COLOMBO family members in the very near future to discuss this matter.

In explaining only a possible connection between DE LUCCIA and D'AMBROSIO on 12/11/69, informant advised that he last heard that D'AMBROSIO was partners with DE LUCCIA in the wholesale distribution of obscene films which he was obtaining

b6 -2
b7C -2

[redacted] It is noted during the recent past [redacted] was arrested on a number of occasions by the FBI in ITOM violations.

Informant anticipates that he will be invited to attend this meeting and expects to have one day notice regarding the time and location for same.

On 12/16/69, [redacted] advised that he had just then been informed that the planned meeting which was to be held at the home of MICHAEL SAVINO was being changed to another location, inasmuch as SAVINO was ill and further that COLOMBO intended to drastically reduce the number of persons who would attend this meeting. Informant advised that he, himself would be "picked up" and brought to this meeting.

b2 -1

In view of the foregoing, which would indicate that only a small number of persons would attend this meeting, it was felt that no action should be taken by the NYO for obvious security reasons. It was also felt that serving subpoenas on a small group would not have the desired impact and disruptive effect on the COLOMBO "family".

On 12/17/69, informant was contacted and advised the following persons were in attendance at this meeting:

JOSEPH COLOMBO
CHARLES MINEO
CARMINE PERSICO

[REDACTED]

VINCENT ALOI
NICK BIANCO
ROCCO MIRAGLIA
GREGORY SCARPA
JOSEPH YACOVELLI

Informant also advised that above meeting was extremely brief with JOE COLOMBO's opening his remarks stating that he had cancelled many invitations to this meeting because of the tremendous pressure being exerted by Federal Agents in the Brooklyn, NY area because of the disappearance of D'AMBROSIO and DE LUCCIA. COLOMBO advised that instead he was instructing members of his "family" to contact him in small groups at Cantolupo Reality sometime during the week beginning 12/22/69. COLOMBO advised at that time he would give specific instructions and information regarding the above disappearances.

COLOMBO at this meeting again expressed pride with the deportment of his family. COLOMBO also advised he was surprised at all the "heat" being brought on his family stating that "they" should be grateful at the way his "family" behaves, noting that he would not tolerate narcotics, prostitution or disrespect in general. COLOMBO then officially introduced JOE YACOVELLI as the new "consigliere" and stated that YACOVELLI's regime would be taken over by LOMBARDINO. Informant advised that he could not recall which of the LOMBARDINO brothers would be made a "caporegima".

COLOMBO also advised that JIMMY MUCE was presently "in hiding" because efforts are being made to subpoena him in Nassau County and also that ANTHONY PERAINO was likewise "ducking". COLOMBO said he had ordered all members of his "family" to invoke the Fifth Amendment if subpoenaed and if granted immunity they were instructed to go to their "caporegimas".

Informant advised this meeting was held in the basement of a house located at [REDACTED] the owner of which house was believed by the informant to be a close associate of DICK FUSCO.

[redacted]
It is to be noted [redacted] is the residence of [redacted] who has been characterized in the past by non-member source as being a part of the old MAGLIOCCO "family". b6 -2

As the Bureau is aware, at the current time there are 4 grand juries in session which are, in part or wholly, aimed at the JOSEPH COLOMBO "Family" of LCN. These Grand Juries are EDNY, Strike Force, Nassau County Grand Jury, the Joint Legislative Committee of SIC and Brooklyn Rackets Grand Jury. Consequently, numerous COLOMBO "Family" members have been subpoenaed.

b2 -1

During recent contacts with [redacted] he expressed great concern over the fact that he had not personally been subpoenaed. It was explained to him that no efforts had been made to preclude his being subpoenaed at which time he stated he personally desired, if possible, to be subpoenaed, in the EDNY, Strike Force, which would definitely assist in diverting suspicion from him.

It is to be noted, as previously pointed out to the Bureau, the NYO is making a concentrated effort to expose all phases of the COLOMBO "Family's" operations and has exerted considerable investigative pressure which has been highly successful.

In line with this continuing investigation, the NYO had planned on subpoenaing [redacted]

On 3/17 and 4/16/70, informant advised that he had had a number of conversations with BIANCO at which time, BIANCO advised that to date COLOMBO had given him nothing more than a title, which did not put "one extra dollar in my pocket". BIANCO is apparently very disappointed that COLOMBO had not assigned any men to him and recently has been talking about possibly moving back to Rhode Island with his wife and new baby.

NY 92-6026

On 3/28/70, informant advised he had heard rumors that [REDACTED] and possibly two other Chicago hoods had been to NYC two or three times during past month seeking to purchase stolen securities to bring back to Chicago where they intended to use as collateral for bank loan. Informant advises he heard that [REDACTED] was a big shot LCN member from Chicago but that his accomplices were merely hot securities experts. b6 -2 b7C -2

Informant continued he heard [REDACTED] was interested in stolen US Treasury Bills, Municipals and "street" name securities. Informant heard that a list of stolen municipals valued at \$550,000 was circulating in Brooklyn, NY, and this list included Kansas City Sewerage Bonds in \$1,000 bearer denoms; City of Columbus bearer bonds in \$5,000; City of Cleveland bearer bonds in \$5,000; Dallas County bearer bonds in \$1,000 denoms; as well as numerous others. Informant advised he was unable to obtain the exact serial numbers but would try to "reach out" for original list. Informant was directed to obtain any possible additional information.

On 4/6/70, informant advised he heard that on Saturday (4/4/70) [REDACTED] was again in NYC attempting to purchase stolen securities. Informant was unable to obtain any additional details.

ROBERT STASSI
INFORMATION CONCERNING

b6 -2
b7C -2

On 4/1/70, informant advised he is a close associate of ROBERT STASSI and heard the following story from him:

An individual known as [REDACTED] (LNU) is close to one, [REDACTED] GEORGE SMURRA, 92-2479, an LCN member in the GENOVESE "family" and that [REDACTED] had confided to [REDACTED] that he, [REDACTED] had been assigned to job of "setting up" STASSI aka

[REDACTED]

"RABBIT" for a "hit", since it was suspected that RABBIT was a "stoolie" for the "feds".

[REDACTED]

CARMINE PERSICO, 92-2895, [REDACTED] 92-3196. Informant stated that although [REDACTED] had never been highly thought of, he felt such a "story" would be too fantastic and therefore believed there must be some credence to it. b6 -2 b7C -2

It is noted STASSI had been an unsuccessful target of the NYO, TECIP and was discontinued approximately 6 months ago.

Informant advised that when this information became known to GREGORY SCARPA, 92-2657, SCARPA called in "RABBIT" and confronted him with this information. Informant explained that RABBIT was in SCARPA's "crew" and would naturally be answerable to him. RABBIT was completely astounded with this information and said he could not understand how such a baseless accusation could have started. RABBIT explained that approximately two weeks previously he had met a friend whom he offered to sell a hijacked truck load of semi-precious metal (tin or lead) and that this individual brought RABBIT to JERRY LANGELLA, who is in PERSICO's "crew". At that meeting, LANGELLA accepted a sample of this metal worth approximately \$150 and before any definite arrangements were made RABBIT explained that the load had not yet been hijacked and that it would be necessary to meet again on the following day with RABBIT's boss, SCARPA so that arrangements could be finalized. However, on the following day when SCARPA and RABBIT kept the appointment, LANGELLA never appeared.

When RABBIT, approximately one week later sought out his friend who introduced him to LANGELLA, his friend supposedly said "Are you trying to get me killed?"

Informant continued that during this period of time JOSEPH COLOMBO was away and was not expected to return that week (3/29 - 4/5/70). Informant pointed out that proper procedure for such a "hit" of this nature, would have been for PERSICO and YACAVELLI to "sit" with COLOMBO, confront him with their suspicions or facts and then COLOMBO would have brought in SCARPA to settle the matter. In the absence of COLOMBO, PERSICO should have himself sought out RABBIT's boss SCARPA and explained the situation to him as a mere courtesy.

[REDACTED]

Informant continued that it was suspected by SCARPA that since there had always been "bad blood" between him and PERSICO that PERSICO was using this as an opportunity to make SCARPA look bad before COLOMBO returned.

Informant advised immediately upon learning this SCARPA went to NICHOLAS BIANCO, explained the situation to him and attempted to enlist BIANCO's aid to get [REDACTED] (LNU) and make him instead set up PERSICO and YACAVELLI so that SCARPA and his group could "hit them" in self-defense. BIANCO, however, said this would hurt JOE COLOMBO by such a rude act and requested that SCARPA wait for COLOMBO to return before doing anything.

b6 -2
b7C -2

Informant continued that after COLOMBO returned, SCARPA allegedly went to him and made a grievance thereafter COLOMBO called in PERSICO and YACAVELLI, who denied the entire episode. COLOMBO then brought SMURRA in from Miami and confronted him with this story so that SMURRA could find the truth out [REDACTED]

b6 -2

Informant said that COLOMBO allegedly told SCARPA "this matter is not over by a long shot".

LEGALIZED OFF-TRACK
BETTING
IGA

On 5/1/70, the effects of legalized off-track betting were discussed with the informant. Informant said he did not believe this would have any effect whatever on gambling with bookmakers for the following reasons:

1. As proposed there would only be 100 locations to serve bettors, whereas there are many times that number of bookmakers available at all hours.
2. Bettors usually do not have extra money to place as credit.
3. Bookmakers enjoy a personal relationship that would be lacking.
4. The large bettors would not want to pay income tax on their winnings.
5. Most importantly, it is agreed that legalized betting will give all bookmakers a "license" since if arrested with betting slips they could alibi it by stating they were going to a legal off-track betting location to place these bets. This in turn would end police corruption in the gambling field.

COLOMBO ranted "we got to take steps, enough is enough". Informant characterized [REDACTED] as an imbecile who is close to JOE COLOMBO and who handles his catering interests. b6 -2 b7C -2

Source advised that they then departed for the NYO and commenced picketing. Informant advised that NICK BIANCO advised he was disgusted but resigned to the fact that he must placate COLOMBO.

Source advised to date no mention was made as to the victim or possible source of information re these arrests.

Source advised that he discontinued picketing at approximately 1 a.m. and then had a discussion with JOE COLOMBO who advised he intended to get more people and continue picketing in the morning.

Source again contacted this date, and advised COLOMBO still acting highly irrational and advised he was instructed to once again picket at the NYO and that COLOMBO was also planning a demonstration at the US Courthouse in Brooklyn, NY.

Source is of the opinion that COLOMBO's actions are idiotic and will cause "family" to be laughing stock of Brooklyn. Other sources of NYO are advising that COLOMBO's action is becoming the laughing stock of NY and feel that COLOMBO himself will be ridiculed and in serious trouble with LCN element in NY.

DETAILS:

SAC, New York, requests authority to continue payments to [REDACTED] on a C.O.D. basis.

The informant is one of our most valuable sources developed to date with respect to organized crime matters. He has been a top echelon informant since March, 1962.

This source is a long-time member of LCN and affiliated with the Joe Colombo "family." His arrest record dates back to 1950 and includes charges of possession of stolen goods from inter-state shipment. By virtue of his membership in LCN, he was one of the first sources to furnish precise information with respect to the structure and membership of LCN. He has identified in excess of 200 members of LCN in the New York-New Jersey area.

The informant is a close confidant of Joe Colombo and one of his choice lieutenants. As you know, Colombo is a member of the "Commission" and one of the most prominent LCN leaders in the country. Through his relationship with Colombo, informant has been able to supply extremely valuable intelligence data regarding LCN activity.

The informant provided information which predicated the Hobbs Act investigation of Joseph Colombo, Jr., and two of his racket associates, Joseph Iannaci and Rocco Miraglia. Our Agents arrested these three individuals on 4-29-70.

As you know, Joseph Colombo became highly incensed over these arrests and initiated picketing at the New York office. Our informant has made available precise information regarding Colombo's actions in directing the picketing. The informant, himself, at Colombo's direction, has been on the picket lines.

Memorandum to Mr. DeLoach

Source has expressed the opinion that Colombo's actions are idiotic and will cause the "family" to be the laughingstock of LCN. Source further pointed out that Colombo acted highly irrational as a result of his son's arrest.

b7C -2

Informant has also advised the New York office in detail regarding Colombo's issuance of instructions to members of his "family" to participate in the picketing. The informant has provided extremely valuable intelligence coverage of this important underworld development.

Informant has also reported the information regarding the promotion of Nick Bianco to the rank of caporegima in the Colombo "family." Source also provided pertinent details with respect to the activities of numerous LCN racket figures receiving investigative attention at the present time.

Because of his close association with Colombo, and his long-time involvement in LCN affairs, this source has an exceptional potential to continue to render extremely valuable services.

Source advised that they then departed for the NYO and commenced picketing. Informant advised that NICK BIANCO advised he was disgusted but resigned to the fact that he must placate COLOMBO.

Source advised to date no mention was made as to the victim or possible source of information re these arrests.

Source advised that he discontinued picketing at approximately 1:00 a.m. and then had a discussion with JOE COLOMBO who advised he intended to get more people and continue picketing in the morning.

Source again contacted this date and advised COLOMBO still acting highly irrational and advised he was instructed to once again picket at the NYO and that COLOMBO was also planning a demonstration at the United States Court House in Brooklyn, NY.

Source is of the opinion that COLOMBO's actions are idiotic and will cause "family" to be laughing stock of Brooklyn. Other sources of NYO are advising that COLOMBO's action is becoming the laughing stock of NY and feel that COLOMBO himself will be ridiculed and in serious trouble with LCN element in New York.

On 5/12/70, informant advised on the previous date he was instructed to have a bus load of pickets report to the NYO, which he did. Informant stated he and others are disgusted with COLOMBO's continuing insistence regarding picketing but are forced to accede to COLOMBO's wishes.

Informant advised during a discussion with [redacted] on 5/11/70 he learned the following:

[redacted] had a meeting planned with ADIC MALONE later in the week, which was arranged by MALONE but that as of that time [redacted] would not attend this meet; that [redacted] had agreed to go "hand in hand" with the picketing; that an attempt was made earlier that day to picket "Newday" but that only 7 or 8 people showed up and it was a flop; that COLOMBO desires to picket all the NY papers because of their lack of coverage at the NYO and because they are involved in discrediting Italian-Americans; that COLOMBO intends to keep enlarging the picketing for approximately 3 weeks to give him an opportunity to organize one massive march from city hall to the NYO which will "cap-off" the demonstrations honorably; that [redacted] has agreed to go to any picket site to talk and has requested to lead any marches planned in the future.

b6 -2
b7C -2

Informant was instructed to continue participation in order to obtain current information.

JOSEPH COLOMBO aka
AR
NY 92-1965

On 5/18/70, informant advised that all COLOMBO "family" members are thoroughly disgusted with COLOMBO's insistence that they continue their picketing as well as furnish others to participate. JOE COLOMBO has made it apparent to his "family" that he is "on the spot" and cannot stop picketing until he can accomplish something significant.

COLOMBO advised informant he will press for the ouster of agents [redacted] who were most responsible for the harassment of his family. COLOMBO advised he has been approaching various labor leaders in NYC who are sympathetic to Italian-American rights and is attempting to organize them with "shutting down NY" by leaving their jobs for a massive demonstration.

b6 -1
b7C -1

[redacted]

COLOMBO advised they have sought the assistance of the ACLU who are presently investigating allegations of harassment by the FBI. [redacted] has proposed to COLOMBO that they publicize the fact the picketing will stop pending the outcome of this inquiry. COLOMBO said that deals have been made with the Sons of Italy as well as other Italian-American groups that if proof of harassment can be obtained, these groups will galvanize with COLOMBO. COLOMBO confided that he cannot stop his demonstration since it will be that much more difficult to start it again. Informant said there is no doubt that COLOMBO is "calling all the shots" and continues to refer to it as "my" demonstration.

b6 -2
b7C -2

Informant advised he has attended the picketing on a nightly basis and that COLOMBO has been keeping a "head count" of all those attending and is angry at those who haven't shown regularly. Informant said on the previous night JIMMY ROSELLI was in attendance as well as ANTHONY AUGELLO, FUNZIE D'AMBROSIO and the usual crew. At one point, AUGELLO falsely claimed an FBI agent had torn his placard off him, spit on him and an incident almost ensued. After this incident, JOE COLOMBO took him aside and severely censured him over this "attempted" incident on AUGELLO's part, informing him that if he wanted one he (COLOMBO) would "arrange one" and have "his photographers" nearby. Informant advised previously BLACK SAM had attempted to start trouble and COLOMBO likewise berated him.

Informant advised that COLOMBO complained that the demonstration was costing him a great deal of money and that he had discontinued the daily arrival of a food truck.

[redacted] furnished the following resume of information pertaining to the picketing of the NYO, the rally at Columbus Circle, and future plans of COLOMBO and his associates:

b2 -1

Informant noted that COLOMBO was very pleased with the outcome and felt that he has scored an impressive success in being able to sustain picketing of the FBI for 8 weeks and climaxing this with a rally. Source advised that many of the COLOMBO "family" members who initially thought that the boss had made a mistake, now agree that COLOMBO has made his point. Informant stated that the coin case against COLOMBO's son and others was the prime reason for the demonstrations that

[redacted]

followed and that to his knowledge, there have been no plans or discussions regarding picketing or similar tactics until the day of the arrests. With regard to the coin case, informant stated that this was never discussed by COLOMBO, who has instructed his son, JOE, JR. that he is not even to discuss this matter with his friends. Informant feels that when the time comes, COLOMBO will see to it that the [redacted] disappears from sight and COLOMBO will then use this point, even if it means enduring 2 or 3 months of intensive heat from the FBI, to emphasize that the [redacted] fabricated the case against his son [redacted], knowing this, could not face his friends in court. b6 -2 b7C -2

Source advised that the next plan of action by COLOMBO was to continue using an ethnic Italian front as a means of continuing this propaganda war against the FBI and the media. He plans to do this on a political and social front by a mass petitioning of congressmen, a possible march on Washington and by the opening of Italian Civil Rights League Branches throughout the US. These branches will be given charters and will be organized by LCN interest in key areas of the US. A mass membership drive has already been initiated with each COLOMBO associate required to enlist a quota of new dues paying members. COLOMBO expects to raise a lot of money and anticipates celebrating Italian Unity Day on an annual basis.

Informant stated that although COLOMBO, through the Ad Hoc Committee Front of the Italian Civil Rights League, expended large amounts of money, he got the impression that COLOMBO was able to recoup these expenses through the sale of various Italian paraphernalia and the receipt of "all kinds of contributions". Additionally, informant learned that AID will be discontinued as an organization and the balance of his treasury transferred to COLOMBO's new organization. He advised that he learned also that the Italian Civil Rights League was buying the "Long Island Post" newspaper and that COLOMBO was exerting his close associates to purchase a share of this newspaper venture for \$1500.

Informant advised that he estimated that the crowd at Columbus Circle totaled 75,000 to 80,000 people and that he personally supervised the unloading of about 100 chartered

[redacted]

buses from his area alone. He stated that COLOMBO gave strict orders before-hand to the individuals who were supervising the canvassing of neighborhood stores and handing out of Unity Day posters not to use any coercion or threats whatsoever and that everyone had strict orders to maintain order at all costs at the Unity Day Rally. Informant stated he personally, however, noted groups of "young punks", particularly from East Harlem, getting out of hand while in the vicinity of the NYO and had to strongly admonish and physically restrain them on several occasions. He stated that he had personal knowledge that some marchers had water dropped on their heads from the apartments on 69th St. and that this may have initiated incidents that followed. Informant stated he did not know the identity of the individuals involved in the stabbing of the policemen.

The source advised further that COLOMBO planned to continue using the Sheraton Hotel as headquarters for the movement and that this office was manned on a 24 hour basis by legitimate people; that all appropriate records, including future plans, petitions, signed statements and affidavits of harassment obtained from legitimate people and presumably derogatory photographs involving agents were maintained in this office.

Informant stated that COLOMBO had the complete blessing of CARLO GAMBINO during the past 8 weeks, as well as moral support from other "families", some of whom sent some of their people to march. In this regard source mentioned [redacted] a GENOVESE member from East Harlem, as well as [redacted] being active in the picketing. Source emphasized that this was JOE COLOMBO's "thing" and that he did not have any set plan or regularly scheduled conferences with either his captains or other "families", that COLOMBO consulted with his close associates but depended primarily on [redacted]. He noted that the Ad Hoc Committee headed by [redacted] would play little or no part in the expanded program COLOMBO plans for the future. He has noted that [redacted] has been complaining considerably to COLOMBO and other members of his financial plight and was hoping for a permanent position with the Civil Rights league in view of his [redacted] in the past 8 weeks. Source was of the opinion that [redacted] was making no bones about aligning himself more closely with COLOMBO and that possibly [redacted] foresees using this alignment as a political springboard even though it would be

b6 -2
b7C -2

CLEMENTE-700

[redacted] completely indebted to COLOMBO; [redacted] feels that his ethnic background, coupled with large scale NY political figures, including Mayor LINDSAY, would serve him well in the future.

With regard to prominent individuals in the COLOMBO "family" who were conspicuous by their absences during the 8 weeks of picketing, COLOMBO stated publicly at a funeral home gathering recently that "those friends who are not out there supporting this demonstration are to be considered enemies". Informant says that possibly certain significant COLOMBO figures such as VINNIE ALOI, JOE YACOVELLI and CARMINE PERSICO had some sort of dispensation, but that COLOMBO has a fantastic memory for noting people who are present for supporting him. Informant noted that CARMINE PERSICO, although not appearing at the picket line, had made 2 or 3 trips to the hotel headquarters, as well as being present at Columbus Circle for preparations the night before the rally. Even the aged underboss, CHARLES SALVATORE MINEO, attended the picketing one night. JIGGS FORLANO made two appearances. FUNZIE D'AMBROSIO began attending often toward the end, bringing several bus loads from the Avenue U area.

b6 -2
b7C -2

COLOMBO was very fearful that the rally would culminate in a free for all and that all his work of the past 8 weeks would be nullified by a display of violence. Informant described COLOMBO as "very excited and extremely nervous" at the rally's end and he advised the crowds to disperse without any further incidents.

Informant concluded with an evaluation of COLOMBO by stating that there was no one within the "family" who at present was a challenge to COLOMBO's leadership and that presently he, [redacted] would prefer COLOMBO as boss rather than any of the logical successors, CARMINE PERSICO, JIGGS FORLANO or JOE YACOVELLI. Informant stated that eventually he would consider NICK BIANCO the best prospect for leadership as a most level headed all around competent individual and close friend. Informant described VINNIE ALOI as being a very competent administrator with no ambitions who was "strictly COLOMBO's man".

It is noted during August, 1970, informant mentioned the fact JOSEPH COLOMBO was involved in a numbers operation in Brooklyn, New York. Informant was encouraged to quietly pursue this information in view of pending new gambling legislation.

On 10/19 and 20/70, informant advised he learned discreetly through conversation and spot checks on his part the following:

JOSEPH COLOMBO is in partnership with approximately ten individuals who each control a numbers operation in the New York area. Included in this group are [REDACTED] DICK FUSCO (whose son SAL is presently running) and one [REDACTED] (TNU), who is an LCN member in another "family". Informant estimated the weekly gross is between \$50,000 and \$100,000 and having a weekly payoff to the NYCPD on a divisional and borough level of approximately \$2,500-\$5,000. Each individual operator must turn in his "work" (numbers played and amounts of bets) by 4:30 p.m. daily to a leather goods store located on Cropsey Avenue, near Bay Parkway, which is

JOE also is supplied with a detailed list of all monies due him on a weekly basis leading informant to conclude that [redacted] also maintains JOE COLOMBO's shylock records. Informant continued that he now believes this operation is even larger than he had previously estimated and there are probably 15 to 20 banks involved in this operation. Informant stated that approximately 5 months previously part of this operation was using as a "drop" an abandoned auto located at the Boat Yard Bar, Brooklyn, New York, but apparently the Vice Squad learned of this and began watching this "drop". One day after all the action was turned in they followed the pickup man who then went to another location. The police, thinking they had located the "bank" rushed in and arrested this individual and found to their dismay that this was not the bank. They thereafter

arrested the other individuals who were observed dropping off their work and that police records would show the identity of these persons. Informant said it was because of this raid that JOSEPH COLOMBO arranged to payoff the cops so as not to cause him further trouble.

He stated COLOMBO advised him that he is attempting to erase any stigma attached to the IACRL and use the League for a purpose unconnected with the criminal field. This source is a highly placed member of the Joseph Colombo "family" of LCN in New York. Since September, 1967, he has been in regularly paid status receiving [redacted]

On June 3, 1969, an armed-hijacking took place on Staten Island, New York, involving 400 cylinders of mercury. Two days later the informant reported the specific location of the loot. His vitally important assistance enabled Bureau Agents to make a recovery of stolen mercury valued at approximately \$200,000 and the arrest of two individuals who subsequently were convicted.

In July, 1969, he uncovered a location in Brooklyn used as a "drop" for stolen merchandise and identified [redacted] active hijacker. Acting on the informant's information, the New York office arrested four individuals on Theft From Interstate Shipment charges and recovered stolen coffee valued at \$32,500.

of Italian descent. The informant has furnished comments made by Colombo concerning the difficulties he is experiencing due to the pressure of FBI investigations. The informant pointed out Colombo stated he is unable to comprehend the actions of the FBI as he was able to get the President and Attorney General to back down by only threatening to march on Washington.

The informant made available information which made possible the arrest on April 30, 1970 of Colombo's son, Joe Jr., and three other racket figures including Rocco Miraglia, a LCN caporegima, on a Hobbs Act violation.

The informant has recently supplied detailed and precise information regarding an extensive policy operation in Brooklyn under the control and direction of Joe Colombo. He described this venture as having a weekly gross of between \$50,000 and \$100,000 and reported it involved weekly payoffs of between \$2,500 and \$5,000 to officers of the New York City Police Department. This matter is currently under investigation for violation of the recently enacted Organized Crime Control Act of 1970 and has an exceptional prosecutive potential. On the basis of the informant's specific information, a request to the Attorney General is being prepared for use of electronic coverage in this case pursuant to Title III.

The informant, at extreme personal danger, has enabled the Bureau to penetrate top level of LCN activity in New York. He is currently in dire need of financial assistance. The informant's continuing services are of vital importance at the present time in pressing the gambling investigation of Colombo which has the probability of delivering a devastating blow to a major LCN operation.

On the day following the above armed hijacking, informant advised he had been introduced to [REDACTED] both of whom he knew to be involved in hijackings. At this time, these individuals advised they were controlling the above load and asked informant if he knew of anyone who could "handle it". Informant was instructed to ingratiate himself [REDACTED] in an effort to gain their confidence in order to learn as much as possible about their activities and if possible, the location of the load.

b2 -2

Through his shrewdness and skill he completely gained their trust and at approximately 8 p.m., 6/5/69, informant telephonically contacted the NYO and stated that he had been able to determine the exact location of the drop where the mercury was being stored. He advised it was 2581 Richmond Terrace, Staten Island, New York and that an individual named LOUIS D. (TNU) was probably going to purchase this load from [REDACTED]

This vital information permitted Bureau Agents of the NYO to initiate an extremely discreet surveillance which subsequently resulted [redacted]

[redacted] as well as the recovery of 324 cylinders of mercury valued at \$200,000.

On 6/7/69 informant advised he had learned that the truck used [redacted] to transport this mercury and which was recovered by SAS of the NYO, had itself been hijacked approximately two weeks previously and, at that time contained a load of air conditioners. Immediately thereafter, this was verified and it was determined this truck bore a stolen New York license plate, as well.

b7C -2

It is to be noted that to date neither [redacted]

[redacted]

As an outgrowth of the seizure of instant mercury by the FBI, on 6/9/69, informant advised he had discussed this matter with JOE COLOMBO. COLOMBO advised that he had already been contacted by PAUL SCIACCA (92-3641), head of the SCIACCA "family" who told him that [redacted] (92-3875) described by SCIACCA [redacted] in his "family" and [redacted] (92-4217), described [redacted] in his "family" desired to have a "sit-down" with informant. Informant advised that SCIACCA is representing [redacted] since word had spread through the underworld that the COLOMBO "family" had interested itself in this load and since neither [redacted] received any money SCIACCA felt this would be an excellent opportunity to "cut himself in" on any monies owing them. Informant stated many LCN members earn considerable money in this manner since hijackers are rarely "connected" that are powerless to act against an LCN member, forcing them to approach a friend, or a friend of a friend, who is an LCN member so that this person can talk "from power". When an intercession such as this is made by an LCN member, he will automatically receive a considerable portion of any money that is caused to change hands. COLOMBO instructed the informant to be respectful and cordial, but to make no commitments during this sit down, which informant did.

b6 -2
b7C -2

Informant thereafter contacted [redacted] who claimed that he had lost the entire 400 cylinders (note that NYO

b2 -2

b6 -2

[redacted]
recovered 324) and that he would arrange to have an LCN member represent him in a sit down which would be attended by informant COLOMBO and appropriate SCIACCA "people". It is noted [redacted] lied at this point, which strengthened informant's position, especially since a newspaper article later appeared with details of the recovery.

During June, 1969, the informant was contacted on almost a daily basis in connection with this matter for all details concerning this sit-down which would shed an insight into the handling of inter-"family" disputes.

On 7/7/69, informant advised that he had been approached the previous week by FRANK LUPO, who was highly recommended by JOE COLOMBO as "one of us in another family" and LUPO advised informant that he would ostensibly represent [redacted] interests. At that time, LUPO assured informant that he would in fact, be certain informant's position was protected.

b6 -2
b7C -2

Based on informant's ability to obtain the exact location of above drop within an extremely short period of time, which in turn placed his position in great jeopardy, the NYO of the FBI was able to effectuate the arrests and [redacted]

It is noted during 1969, informant also began furnishing information regarding [redacted] whom he identified as [redacted]. Informant was able to furnish details of [redacted] hangouts and associates. It is noted [redacted] was previously unknown to the NYO.

Armed with this information, the NYO began intensive investigations into [redacted] activities and was subsequently able to surveil him. [redacted] was driving a suspicious-appearing truck and proceeded to an area not far from 2581 Richmond Terrace, Staten Island. It is noted that this location was previously furnished by informant in connection with the mercury load, but at that time, in order not to compromise the informant's

Inasmuch as the NYO was aware that 2581 Richmond Terrace had been previously used as a drop and was never "hit", it was felt that [redacted] was probably en route to this location.

As a result, SAS of the NYO then proceeded to this location and there discovered that [redacted] had in his possession \$60,000 worth of stolen Maxwell House Coffee. Accordingly,

Subsequent investigation by the NYO identified [redacted]
[redacted]
After a number of contacts with [redacted] it was developed that [redacted] had entered into a business venture [redacted]
[redacted]

b6 -2
b7C -2

This business venture in itself was clearly a violation of Federal Law since it entailed their purchasing US silver coins in large quantities, melting them down and thereafter, selling it as silver, which converted at a higher price than the

face value of the coins. This scheme involved the melting of over \$500,000 in face value of US coins. [redacted] claimed that he had more than paid [redacted] and [redacted] had visited him claiming [redacted] still owed [redacted] \$3,500 during negotiations in the Summer of 1969, between [redacted]

Informant was instructed to maintain close liaison with JOSEPH COLOMBO, SR. and to keep the NYO abreast of all activities. On a number of subsequent occasions, informant reported that COLOMBO complained to him that [redacted] was slow paying. On 8/13/69, informant reported that he had been in conversation with [redacted] advised that he had "slapped the kid around" but that [redacted] kept "crying poor mouth". [redacted] confided that if COLOMBO kept it up it would cause [redacted] to get arrested since he felt [redacted] was a "cry baby" and might run to the cops. Informant also advised that [redacted] had a tendency to exaggerate and that he may have told COLOMBO he "slapped" victim but that this may or may not be true. b6 -2 b7C -2

Based on informant's original information concerning [redacted] and through investigation of a Hobbs Act case, as well, a violation of Treasury Laws concerning the melting of silver was developed by the NYO. Bureau Agents arrested JOSEPH ANTHONY COLOMBO, JR., JOSEPH IANACCI, ROCCO MIRAGLIA and DAVE LEONARD. They were subsequently indicted before FGJ, EDNY, and their trial is expected to take place in the near future. b6 -2 b7C -2

Immediately subsequent to COLOMBO, JR.'s arrest, COLOMBO, SR. became enraged and organized picketing of the NYO of the FBI, alleging harassment. It is interesting to note that this picketing lasted for approximately 2 months, culminating in a march from Columbus Circle. Throughout this entire period, the informant participated on a regular basis in all activities and was able to keep the Bureau advised on a current basis as to exactly what COLOMBO's intentions were.

As the Bureau is aware, this informant is regularly paid [redacted] He is an extremely valuable informant and has consistently developed outstanding information bearing on criminal matters within the Bureau's jurisdiction, as well as vital intelligence information. He is able to provide the latter primarily as a result of a close association with b2 -3

[redacted]

JOSEPH COLOMBO, SR., boss of the COLOMBO "family". He has the full confidence and a close working relationship with him. The caliber of the information furnished by him is not available from any other source nor could it be developed through independent investigation. It is felt that the regular information furnished by him on a continuing basis more than justifies the sums which are paid to him. No additional payment has been requested of the Bureau previously to recompense the informant for the 3 specific cases, which are set out in some detail earlier in this communication and it is felt that a lump-sum payment is justified.

At the present time the informant is in a financial "squeeze" especially since he owes a considerable sum on his income tax. The Internal Revenue Service has been putting pressure on him to satisfy his tax obligation but he has been unable to do so because of a shortage of available cash.

Since the passage of the new Organized Crime Control Act of 1970, additional discussions have been had with this informant. He has told handling agents that JOE COLOMBO himself is involved in an operation which would come within the purview of this new legislation.

b6 -2
b7C -2

Informant has recently explained that COLOMBO is a partner with approximately 15 individual policy bankers operating in Brooklyn and that COLOMBO handles all the paper work in connection with racket. Informant explained that COLOMBO [redacted]

[redacted] Informant said because of COLOMBO's suspicious nature, he is aware that COLOMBO regularly visits [redacted] and personally reviews the sheets to make certain he is not being cheated "past posted". Informant said he would not only obtain additional details as developed by him but he could actually advise as to the most propitious moment that arrests be made so that sufficient damaging evidence could be gathered, which could result in the arrest of 15 or more. This would naturally include JOE COLOMBO as well as others closely associated with him.

To furnish information which would permit the Bureau to develop prosecutable cases on COLOMBO et al, would necessarily bring about a greater risk for the informant and it is felt that a lump-sum payment at this time would act as a further inducement for him to fully assist.

Accordingly, in view of the information furnished, which resulted in 2 arrests, convictions and the recovery of

This is to recommend continuation of authority to pay on a strictly C.O.D. basis. b2 -1,3

This source is a highly placed member of the Joseph Colombo "family" of LCN in New York. He has been a top echelon informant since March 1962, and is one of the most outstanding sources developed in our top echelon program. During the past six month period he continued to supply a large volume of extremely valuable information.

The informant made available detailed and precise information regarding an extensive policy operation in Brooklyn under the control and direction of Joseph Colombo. He described this venture as having a weekly gross of between \$50,000 and \$100,000 and reported it involved weekly pay-offs of between \$2500 and \$5000 to officers of the New York City Police Department. On the basis of this information electronic surveillance coverage is being used in this investigation pursuant to provisions of Title III. This matter is receiving intensive investigative attention.

As you know, Joe Colombo, the publicity seeking leader of a professional LCN "family" in New York, has led a vociferous smear campaign against the FBI. This source has kept the New York office advised on a current basis with respect to the activities of Colombo and his racket associates.

The informant supplied the New York office with securities which were stolen from the United States mail. These securities were turned over to the Postal Inspectors office in New York city and had a recovery value of approximately \$80,000.

JOSEPH ANTHONY COLOMBO aka
AR
NY 92-1965

On 11/9/70, informant advised that he had recently
attended a meeting with subject and NICK BIANCO, Capo in the LCN
COLOMBO "family". During the course of the meeting, BIANCO stated
that he was having a great deal of difficulty in his operations
because "the FBI was everywhere" just waiting for him to make a
move.

Subject advised that he, himself, was also
experiencing a great deal of difficulty. He stated that the
Internal Revenue Service (IRS), was "on his back", and that his
attorneys had advised that the FBI had developed a strong case
against his son. [REDACTED]

b6 -2
b7C -2

Subject advised that his attorneys advised that the
only way COLOMBO, JR. could beat the FBI case would be to find a
constitutional technicality in the silver melting law, or, if the
case comes to trial, to show that [REDACTED]

[REDACTED]

[redacted]

Subject stated he is aware that JOE BREWSTER, a member of informant's crew, pulled a successful burglary of a valuable coin collection which burglary was [redacted]. Also involved in this burglary was one JOE MUTOLI aka "The Mutt". The victim of the burglary was very close to COLOMBO Capo CARMINE PERSICO. PERSICO allegedly went to COLOMBO accusing MUTOLI and BREWSTER of the job and requesting that the proceeds be returned to the victim. b6 -2 b7C -2

Sources close to COLOMBO interceded for BREWSTER and convinced COLOMBO he had nothing to do with the burglary. MUTOLI, however, was strongly implicated. When PERSICO confronted MUTOLI about his involvement in this case, MUTOLI denied the charges. There after PERSICO requested permission from subject to "hit" MUTOLI. Subject granted this permission and MUTOLI was murdered 8 to 9 months ago.

COLOMBO stated that he was exploring with his attorneys the effect of bringing testimony relating to this burglary into evidence at the trial of COLOMBO, JR. Subject requested informant to explore with BREWSTER the possibilities of his testifying to [redacted] involvement. b6 -2 b7C -2

Subject then began a harangue on how the FBI has completely penetrated all his interests. Subject specifically mentioned the FBI's investigation into his involvement in a trucking company and then arresting the operator of the company for allegedly not testifying against him. (This is no doubt referring to the ECT case entitled: "JOSEPH ANTHONY COLOMBO; [redacted]

[redacted] NY file 179-281", [redacted] Brooklyn, NY, were arrested by Special Agents of the NYO on 11/5/70, for Fraud Against the Government.)

Subject stated that he was unable to comprehend the actions of the FBI inasmuch as he had been able to get President NIXON and Attorney General MITCHELL to back down by only threatening to march on Washington; that he made the "New York Times" print a retraction after only picketing their plant for one day; but that after picketing the FBI for 2 months and then massing 200,000 persons (this is subject's estimate - it is noted NYCPD estimated crowd at 40,000 persons), they have increased their investigations into his "family" instead.

[REDACTED]

Subject, who appeared extremely frustrated, then directed informant and NICK BIANCO to personally speak to each man in their crews to learn of any unusual act or deed conducted by any FBI Agent in the Brooklyn, NY area. Subject said that all crew members should also talk to friends, relatives, and businessmen in their areas seeking the same type of information.

Subject pointed out that any allegation could be made to look bad if it were properly worded. Subject advised that he would personally furnish any persons making an allegation with proper legal counsel who could guarantee to protect individuals making allegations. Subject stated that this was extremely important to all members of his "family", since if they could sufficiently embarrass even one FBI agent on any charge, it would make all agents feel they too were vulnerable and force them to "pull back their horns".

ITALIAN AMERICAN
CIVIL RIGHTS LEAGUE
AR
NY 92-6210

On 11/13/70, informant advised that he was recently in conversation with LCN Boss JOSEPH COLOMBO and was advised of the following:

Approximately 2 to 3 weeks ago, COLOMBO was in contact with one ANTHONY SPERO, owner of a luncheonette located in the proximity of the Cantalupo Realty Company where COLOMBO is "legitimately" employed.

Review of NYO indices indicates SPERO is a close associate of numerous COLOMBO members. He is alleged to be actively involved in hijacking and policy gambling. He has been the subject of 3 TFIS cases in the NYO and is carried as a known gambler by the NYCPD.

COLOMBO contacted SPERO and requested that he swear out an affidavit alleging harassment by agents of the NYO. COLOMBO told him that the obtaining of such an affidavit was of extreme importance to captioned organization. SPERO told COLOMBO that he would do anything for him including stealing or killing, but he could not furnish such an affidavit. SPERO stated that he is currently involved in legal difficulties with local authorities and did not wish to needlessly bring down any additional pressure on himself. SPERO stated that he CLEMENTE-736 if he submitted such an

[REDACTED]

affidavit he would be immediately summoned before a Federal Grand Jury and would run the risk of committing perjury. For this reason he flatly refused to honor COLOMBO's request.

According to informant, COLOMBO flew into a rage over SPERO's reaction to his request. COLOMBO contacted informant and told informant to advise his crew that SPERO is to be totally ostracized for his insubordination. Informant stated that he did as requested and in his opinion, SPERO is now totally isolated.

It is to be noted that SPERO is identical to the luncheonette owner referred to in New York airtel captioned "JOSEPH COLOMBO aka; Bufile 92-5509", dated 7/29/70.

On 11/13/70, informant was contacted and advised that all entertainers appearing at the 11/20/70, rally had donated their services to the event. Informant stated that FRANK SINATRA was actually "ramrodding" the obtaining of talent, and that the entertainers had agreed to appear as a favor to SINATRA. Informant stated as he has previously reported SINATRA and JOSEPH COLOMBO, LCN boss, enjoy a close personal relationship going back a few years. Informant stated that he did not know the basis for this relationship, but it is as a result of this association that SINATRA has taken it upon himself to recruit talent for the event.

Informant stated that JOSEPH COLOMBO is throwing all his energies into captioned organization and specifically the 11/20 rally. Informant stated that COLOMBO has ordered all his "family" members to become actively engaged in assuring that the rally is a success. All members and associates of the COLOMBO "family" have been given quotas of tickets to dispose of and are also engaged in the sale of raffle tickets and the distribution of advertising material in connection with the rally.

Informant stated that COLOMBO's order that members become engaged in activities relating to captioned organization has begun to cause behind the scenes grumbling. Many COLOMBO members and associates would prefer to spend more time involved in illegal money making activities rather than activities concerned with captioned organization. These individuals consider it demeaning for LCN member to become involved in the type activities they are currently engaged in. It is to be noted that on 11/12/70, the NYO arrested COLOMBO associate FRANK FALANGA on perjury charges in connection with NY file

CLEMENTE-737

On 11/16/70, informant advised he was in contact with JOSEPH COLOMBO over the previous weekend. COLOMBO urged him to vigorously continue efforts on behalf of captioned organization. COLOMBO stated if captioned organization does not continue to grow, it will die.

This work sheet should reflect the date, the day and the name or number of the runner on the top of the sheet. Below this is listed the numbers taken by the runner and the amounts bet.

Regarding delivery of policy work sheets to [REDACTED] informant advised on 12/9/70, that work would be delivered on a daily basis except as a matter of precaution when [REDACTED] might possibly keep them overnight. Informant advised that when a controller receives his work sheet [redacted] he prepares a work sheet on each of his runners showing the amounts due and owing. The controller's work sheet is returned to the runner on either Monday or Tuesday and amounts due and owing are paid usually on Tuesday.

On 12/16/70, informant advised that the Manhattan Office where the Bath Avenue location calls to lay off the policy action is one of the biggest in the city. He advised that this Manhattan bank [redacted] (LNU) and is located in the Mulberry St. area of Manhattan.

He advised that JOSEPH IANNACI hit a number at this Manhattan bank within the last 2 weeks for \$40,000. Within the next 10 days, [redacted] also hit this Manhattan bank for a similar amount. Informant described an "overlook" as a policy hit not noted on a work sheet, or overlooked in review. In this regard, informant noted that a collector will usually list the hits for a previous day on envelopes containing work for the following day. [redacted] apparently does not look at the work slips on a daily basis, as she will usually overlook hits not noted on the envelopes. However, work slips submitted on Saturday usually have been thoroughly reviewed and all hits noted. Informant believes [redacted] reviews all work sheets for the week on Saturday or Sunday, while preparing her own tally sheets which are returned on Mondays.

Informant speculated that either [redacted] would pick up tally sheets prepared by [redacted] on Monday mornings. These sheets would then be brought or sent to [redacted] where they would be returned to appropriate collectors and thence to appropriate controllers.

Further, informant advised that JOE COLOMBO would also probably get his copy of these work sheets on Monday mornings in order to know who owes him money for the week. Informant said [redacted] boasted to him that [redacted]
[redacted] he carefully and minutely examined the premises
for any listening type devices and on the previous date he had
discovered above. Informant said that [redacted] felt confident
that this device had been put in during the weekend and that no
information was obtained from it because of his quick
discovery. [redacted] continued, however, that because of this
they would not use the leather shop as a numbers drop for COLOMBO's
banks but instead would now use an old car which would be parked
at a Gulf Service Station on 86th St. which is located near
Prospero Funeral Home. [redacted] also advised that they would probably
find a new store to use as a drop eventually.

On 2/4 and 2/11/71, informant advised during recent
discussions with [redacted] related that COLOMBO
desired that further "security" be afforded their gambling operation.
Informant stated that in the future, COLOMBO did not want the "work"
to be accompanied with the weekly "tally sheets" for each numbers
bank operation and therefore, it was proposed that the "sheets"
be delivered on Sunday night rather than on Monday as heretofore
practiced. Informant stated accordingly, [redacted] would have

Informant advised on 1/7/71, regarding [redacted]
[redacted] the following story:

[redacted]

On 3/5/71, informant advised that in view of COLOMBO's arrest mass picketting will be carried out at the Nassau County District Attorney's Office that night and the following day and probably beginning Monday, 3/8/71, picketting would again commence at the FBI, NYC headquarters. Informant explained that everyone is convinced that the FBI furnished the information to the Nassau County DA's Office which led to JOE COLOMBO's arrest.

Informant advised that [REDACTED] told him that these bonds had been stolen in a burglary in Queens, NY and that he was unable to sell them and requested informant attempt to find a buyer for same and if unsuccessful to destroy them.

It is to be noted above bonds with accrued interest of a total value of \$265,000.

On 2/4, 11 and 23/71, informant began to furnish information regarding what appears to be a major auto theft ring operating from Brooklyn, New York. Informant explained that he had received bits and pieces of information which indicate to him that starting at least two years ago stolen cars were being brought to [REDACTED], Brooklyn, New York, and the quantity ran approximately 25 cars per week. Informant explained that two Jewish individuals operate this dealership and are aware of what is going on although [REDACTED]

In all cases the VIN numbers were changed and the cars were "semi-legitimate". Informant stated that he might recognize the name [redacted] if furnished to him.

Informant continued that numerous individuals were stealing cars for this operation and included were [redacted] (LCN member of the CARLO GAMBINO "family"), HUGHIE MC INTOSH, close associate of CARMINE PERSICO (LCN Captain in the COLOMBO "family"), JERRY LANGEIA, PERSICO associate, and others, whom he will try to identify.

SAC, New York, has recommended a lump-sum payment of [REDACTED] to be made to the above-captioned top echelon informant for the magnitude of his accomplishments in the providing of detailed and precise information which led to the arrest of New York La Cosa Nostra (LCN) "boss" Joseph Colombo and 35 others on Federal gambling charges. The Special Investigative Division concurs in this recommendation.

DETAILS:

The above-captioned source is a highly placed member of the Joseph Colombo "family" of LCN in New York City. Because of his close contact with Joseph Colombo, the Bureau was able to utilize his services to develop significant information with respect to Colombo's activities which could not otherwise have been obtained regardless of the number of Special Agents assigned.

As you know, Joseph Colombo is the publicity seeking leader of one of the largest active LCN "families" in the United States. He is also one of the nine ruling members of LCN's nationwide Commission. He rose to the leadership of this "family" after a vicious two-year period of gangland warfare in which over a dozen murders were committed in the struggle for power. Various sources of the New York office have advised that Colombo was responsible for the 1969 murder of Frank Mari, head of one of the other New York City LCN "families," and that he is currently in the process of trying to oust Carlo Gambino as the ranking LCN leader in the United States.

Memorandum to Mr. Sullivan

b2 -1

Re:

During the past year through "pressure" Colombo claimed to have caused the Attorney General to strike from the Federal language the terms "La Cosa Nostra" and "Mafia." He also led a vociferous smear campaign against the FBI under the guise of attempting to assist citizens of Italian descent. Source has advised that Colombo was unable to comprehend the pressure of FBI investigations as he claims he was able to get the President and the Attorney General to back down by only threatening to march on Washington. The fact of the matter is the Bureau, in the face of Colombo's attack, redoubled its efforts against Colombo who, in keeping with the structure and very essence of organized crime, managed as an LCN "boss" to heavily insulate himself from actual illicit operations. Such insulation had enabled him to reap financial gains from these illegal operations.

In October, 1970, this informant provided the first information identifying an extensive policy operation in Brooklyn, New York, under the control and direction of Joseph Colombo. He described this venture as having a weekly gross of between \$50,000 and \$100,000.

The New York office initiated an extensive gambling investigation which included not only tedious physical surveillances but also electronic surveillance coverage obtained pursuant to Title III of the Omnibus Crime Control and Safe Streets Act of 1968. This electronic surveillance coverage was obtained primarily on the basis of information provided by this informant.

The information provided by this informant on a weekly, and sometimes daily, basis was so detailed that it enabled Agents to attach significance to observations made during surveillances that otherwise might have appeared inconsequential. Being close to Colombo, he was in the unique position to furnish concise information that enabled investigating Agents to strip away Colombo's insulating layers of policy runners, pick-up men, and policy drops. The final result was the arrest of Joseph Colombo and 35 others in early April of this year.

Memorandum to Mr. Sullivan

Re: [redacted]

Without question this source can be classified as one of the leading LCN informants developed in our top echelon program. While the New York office has had approval to compensate this source for services rendered and expenses incurred on a C.O.D. basis [redacted] [redacted] for his regular level of productivity, it is pointed out that the Colombo case has been an almost exclusive assignment for the source for the past six months. In concentrating on this matter, the informant has not only suffered a curtailment in his normal sources of income, but has placed himself in a position of sure death should his cooperation become known to LCN. It is believed that the informant's unusual efforts, directly responsible for the success of this venture, should be recognized by a substantial payment. Not only has there been a curtailment of most of the illegal activities of the Colombo "family" but there has developed a tremendous discord within the ranks of the "family" with the consensus of members feeling that Joseph Colombo was the cause of the increased prosecutive pressures being brought on the organized underworld. Such discord and unrest is certain to be beneficial to the Bureau in its investigations of organized crime in the New York area. b2 -3

ACTION:

It is recommended that a lump-sum payment of [redacted] be made to New York top echelon informant [redacted] in payment for his outstanding service in unraveling the complexity of Joseph Colombo's involvement in a major gambling operation. In the absence of the substantial and detailed information provided by this informant, the implicating of one of LCN's leading chieftains in this operation would have been almost a hopeless task, if not impossible. The informant spent substantial time in assisting the Bureau in this investigation and is in extreme personal danger should it become known to various LCN members that he has cooperated with the FBI in making this case against one of LCN's leading figures. Attached is a letter to SAC, New York, authorizing this payment. b2 -1,3

The following is being set forth regarding a request for a lumpsum payment to informant:

JOSEPH ANTHONY COLOMBO aka;
ET AL
IGB
NY 182-120

During August and September, 1970, during discussions with informant he advised that he was aware that JOE COLOMBO was involved in a large numbers operation in Brooklyn, NY.

During October, 1970, informant advised he had through discreet conversations and personal observations learned of the following:

179-1996-148

JOSEPH COLOMBO is in partnership with approximately ten individuals who each control a numbers operation in the NY area. Included in this group are [REDACTED] DICK FUSCO [REDACTED] and one [REDACTED] (TNU), who is an LCN member in another "family". Informant estimated the weekly gross is between \$50,000 and \$100,000 and having a weekly payoff to the NYCPD on a divisional and borough level of approximately \$2,500 - \$5000. Each individual operator must turn in his "work" (numbers played and amounts of bets) by 4:30 PM daily to a leather goods store located on Cropsey Avenue, near Bay Parkway.

b6 -2
b7C -2

There, [REDACTED] (previously mentioned by informant as being close to JOSEPH COLOMBO and active in stolen securities) in charge of the timely receipt of the "work" and its subsequent transmittal [REDACTED] then by 5:00 PM daily arranges to have all "work" brought [REDACTED] who [REDACTED]

lives in the same building. (It is noted JOSEPH COLOMBO's
[redacted]
[redacted]

[redacted] prepare daily and weekly records of each separate numbers operation and supplies each operation with a weekly summary sheet. Informant pointed out that JOSEPH COLOMBO personally observes this operation with [redacted] and supplies the weekly sheets. Informant believes JOSEPH COLOMBO makes at least weekly visits with [redacted] on Friday, Saturday, Sunday and Monday, since the settlement date is Tuesday. JOE also is supplied with a detailed list of all monies due him on a weekly basis leading informant to conclude that [redacted] also maintains JOE COLOMBO's shylock records. Informant estimated there are at least 50 people involved in this numbers operation. Informant stated that [redacted] handles the police payoffs.

b6 -2
b7C -2

On 10/30/70, informant was exhibited a series of surveillance photographs, which were taken of the leather shop previously mentioned by informant, at which time he identified the following individuals who were leaving or entering the shop during the critical period (2:30 - 3:30 PM):

MIKE SAVINO (JOE COLOMBO's brother-in-law)
[redacted]

b6 -2
b7C -2

Informant continued that he knows this operation is even larger than he had previously estimated and there are probably 15 to 20 banks involved in this operation. Informant stated that approximately five months previously, part of this operation was using as a "drop" an abandoned auto located at the Boat Yard Bar, Brooklyn, NY, but apparently the Vice Squad learned of this and began watching this "drop". One day after all the action was turned in they followed the pickup man who then went to another location. The police, thinking they had located the "bank" rushed in and arrested this individual and found to their dismay that this was not the bank. They thereafter arrested the other

[redacted]

individuals who were observed dropping off their work and that police records would show the identity of these persons. Informant said it was because of this raid that JOSEPH COLOMBO arranged to payoff the cops so as not to cause him further trouble.

During November and December, 1970, informant accompanied NYO SAS [redacted]

[redacted] at which time surveillances were being maintained in the vicinity of the Leather Store as well as the vicinity of the [redacted]

b6 -2
b7C -2
b7E -1

[redacted] On these occasions, informant was able to specifically point out individuals who were involved in this operation explaining their presence, activities as well as showing agents how they were carrying and transporting the "work".

On 12/1/70, informant advised that the policy runners who drop off work at [redacted] prepare duplicate work sheets of all their numbers action. The runner keeps one copy of these work sheets and gives one copy to his collector who delivers them to the [redacted] drop. This work sheet should reflect the date, the day and the name or number of the runner on the top of the sheet. Below this is listed the numbers taken by the runner and the amounts bet.

b6 -2
b7C -2

Regarding delivery of policy work sheets to [redacted] informant advised on 12/9/70, that work would be delivered on a daily basis except as a matter of precaution when [redacted] might possibly keep them overnight. Informant advised that [redacted] computes the records on a daily basis and prepares weekly work sheets which are returned to the controllers on Monday mornings.

b6 -2
b7C -2

Informant believes that [redacted] would collect the work sheets from [redacted] and return them to the [redacted] drop where they would be given to the collectors on Monday afternoons. Informant advised that when a controller receives his work sheet [redacted] he prepares a work sheet on each of his runners showing the amounts due and owing. The controller's work sheet is returned to the runner on either Monday or Tuesday and amounts due and owing are paid usually on Tuesday.

[redacted] b2 -2

On 12/16/70, informant advised that the Manhattan Office where the Bath Avenue location calls to lay off the policy action is one of the biggest in the city. He advised that this Manhattan bank [redacted]

b6 -2
b7C -2

[redacted] and is located in the Mulberry Street area of Manhattan.

He advised that JOSEPH IANNACI hit a number at this Manhattan Bank within the last two weeks for \$40,000. Within the next ten days, [redacted] also hit this Manhattan bank for a similar amount. Informant advised that the work sheets that are being prepared at [redacted] more than likely pertain to numbers being laid off to this Manhattan bank. Informant advised he will attempt to locate the address of this Manhattan bank and the identity of the participants there at.

b6 -2
b7C -2

On 12/20/70 and 1/7/71, informant advised that COLOMBO has given very strict orders regarding delivery of policy work to the "drop" [redacted] Brooklyn, NY, by specified time, probably 4 PM each day. Any collector, who for whatever reason, would not make delivery of his days work to this drop before the specified time would have to return it to his controller who then would probably have to arrange to get it to [redacted] or JOE COLOMBO himself, depending upon his status with COLOMBO.

Informant believes that [redacted] [redacted] would deliver this work to [redacted] possibly at the Italian American Civil Rights League club on Cropsey Avenue and Bay 34th Street. He feels quite sure that [redacted] would not review this work at the club but would most likely take it to her home. She would have to keep copies of this work in her possession for at least two weeks in order to be able to resolve any claims or "overlooks".

b6 -2
b7C -2

Informant described an "overlook" as a policy hit not noted on a work sheet, or overlooked in review. In this regard, informant noted that a collector will usually list the hits for a previous day on envelopes containing work for the following day. [redacted] apparently does not look at the work slips on a daily basis as he will usually overlook hits not noted on the envelopes. However, work slips submitted on Saturday usually have been thoroughly reviewed

[redacted] b2 -2

and all hits noted. Informant believes [redacted]
[redacted] reviews all work sheets for the week on
Saturday or Sunday, while preparing her own tally sheets
which are returned on Mondays.

b6 -2
b7C -2

Informant speculated that either [redacted]
[redacted] would pick up tally sheets prepared [redacted]
[redacted] on Monday mornings. These sheets would then
be brought to or sent to [redacted] where they would
be returned to appropriate collectors and thence to
appropriate controllers.

Further, informant advised that JOE COLOMBO would
also probably get his copy of these work sheets on Monday
mornings in order to know who owes him money for the week.
COLOMBO's sheet would probably be a concise summary of
wins and losses on a small piece of paper which can be easily
destroyed if COLOMBO were stopped by the Police or any law
enforcement agency.

Regarding work being kept [redacted]
informant advised that if it is kept [redacted]
it would definitely not be kept [redacted]
[redacted]

b6 -2
b7C -2

Informant believes that the likelihood of [redacted]
[redacted]
can prepare and maintain these work records is very real.
Particularly if COLOMBO thought either [redacted]
[redacted] had come to the attention of law enforcement
officials he might provide additional "security" such as
this.

Informant identified [redacted] from
photographs taken [redacted] He also
identified photograph of [redacted] taken on the same
date. He suggested that the person accompanying [redacted]
might be [redacted] who is very close to [redacted]

b6 -2
b7C -2

Regarding any possible errors made on [redacted]
[redacted] tally sheets, informant advised that a controller
would merely write a note explaining this error and put the
note in the envelope with the work sheets for the following
day (probably Monday). This envelope would be delivered to
[redacted] with her regular day work. She would review
the work sheet challenged and reply to the controller by a
note returned in the same manner.

CLEMENTE-757

[redacted]

On 1/26/71, informant advised that he had learned from [redacted] that in order to insure the security of the policy operation, the leather shop would no longer be used as a numbers drop for COLOMBO's banks. Instead, an abandoned car parked at a Gulf Service Station on 86th Street, near the Prospero Funeral Home would be used as the drop.

On 2/19/71, informant advised that he had recently been in contact with [redacted] who advised him that commencing on the following Sunday the weekly "sheets" would be delivered to the various banks on Sunday night. [redacted] pointed out that this was a security measure so that the "slips" and the "sheets" will not be together at any one time. [redacted] therefore, would have these ready by Sunday evening, and that "one of the boys" would deliver them. Informant related that he is aware that one such "sheet" would be delivered to a Sunoco Station located on Fort Hamilton Parkway, between 63rd and 64th Streets.

b6 -2
b7C -2

On 2/23/71, informant advised that he learned on the previous Sunday above plans were carried out and that this sheet was delivered and slipped under the door of the closed gas station above.

On 3/10/71, informant was displayed a series of photographs at which time he was able to identify a number of individuals and explain their activities in regards to this gambling operation. At that time, informant made suggestions regarding places of interest to the Bureau involving this operation and how searches may be productive.

On 3/28/71, informant advised that he had learned on that day through a mutual friend that COLOMBO had decided to immediately divest himself of all interest in his Brooklyn based policy operation. Informant was told COLOMBO made this decision as a result of increased pressure being put on him by the FBI and other law enforcement agencies. Informant was requested to immediately devise some excuse

[REDACTED]

for seeing COLOMBO in an effort to immediately obtain any further details regarding COLOMBO's decision.

Thereafter on 3/29/71, informant advised COLOMBO confided that he felt that the FBI had an interest and had developed evidence regarding his policy operation and COLOMBO as of that date would completely have no further part of same. COLOMBO stated that he feels he is completely "burned" and can trust no one. COLOMBO related that

[REDACTED] had requested that COLOMBO turn the entire operation over to someone else such as JOE NAPP (NAPOLITANO) but that COLOMBO had decided against it since he felt that whoever this operation was given to he would in turn "burn them".

b6 -2
b7C -2

As the Bureau is aware to date, JOSEPH COLOMBO and 35 others including other LCN members have been arrested in this case and three additional fugitives are outstanding. The NYO and EDNY Strike Force fully feel that extremely strong evidence exists against COLOMBO and others named by informant. As a result tremendous heat has been created in Brooklyn, New York, which has seriously curtailed almost all illegal activities of the COLOMBO "family" and a general unrest exists with the consensus feeling that COLOMBO is the cause of it all.

The information initially provided by this informant was the first information received by the NYO identifying this numbers operation and in particular pointing out the involvement of LCN boss JOSEPH COLOMBO in the operation. In keeping with the structure and very essence of organized crime, COLOMBO, as a boss was very heavily insulated in this operation. In the absence of the substantial and detailed information provided by this informant, the implicating of COLOMBO in this operation would have been a Herculean task, if not impossible.

As a result of the information received it became apparent that physical surveillances would be a very necessary investigative technique in this case. As result of the information provided by this informant SAS of the NYO were enabled to conduct meaningful surveillances of a great magnitude over a six month period. The information provided by this informant was so detailed as to enable agents to attach significance to observations made during surveillance that otherwise might have been considered inconsequential.

CLEMENTE-759

[REDACTED]

A most productive investigative technique in this case was the use of court approved electronic surveillances. The information provided by this informant provided the very backbone for the probable cause required in the affidavits supporting the court orders for these installations. It can be said unequivocally that if it were not for this informant's information the riddle of JOSEPH COLOMBO's involvement in this major policy gambling operation would have never been unravelled. This informant has been the recipient of lump sum payments in the past. These payments have always acted as inducements and catalysts for continued high level performance.

In view of the above it is requested that a lump sum payment be approved for this informant. [REDACTED]

The primary purpose of the renewed picketting is to force the FBI to transfer agents [REDACTED] and that should the Bureau back down on this, JOE COLOMBO will have received a tremendous infusion of prestige and support for backing the Government down again. To accomplish this and other ends, the IACRL is prepared to use any means including slandering and framing the Agents involved.

Source reiterated that COLOMBO is committed personally to the IACRL but has the wrong people doing and saying the wrong things.

He feels that COLOMBO has more and more reverted to philosophical and theological dissertations on "doing good things" and "God being the ultimate judge" and the like, and feels that COLOMBO may be going prematurely senile in the wake of all the publicity and tension of his legal proceedings.

[REDACTED]

There were no meetings of COLOMBO crews or regimes in 1970 as had been the custom around Christmas in prior years.

Source advised that [REDACTED] is not viewed in the best light by either side as a result of his conniving and treachery in the recent silver trial but that COLOMBO is not basically a blood thirsty vindictive man and probably will not have [REDACTED] killed. Informant stated that COLOMBO was extremely nervous and worried while the jury deliberated and was genuinely relieved at the verdict - the year's worth of expense, legal maneuvering and aggravation made the entire case worthwhile. In the opinion of the informant, from the Government's standpoint, it was quite clear, even to COLOMBO that had [REDACTED] testified as expected all subjects would have been convicted.

SAC. New York, requests authority to pay [REDACTED] on a C.O.D. basis. Special Investigative Division recommends payments to this source [REDACTED] *9-188*

This source is a highly placed member of the Joseph Colombo "family" of LCN in New York. He has been a top echelon informant since March, 1962, and is one of the most outstanding sources developed in our top echelon program. During the past six-month period he continued to supply a large volume of quality information.

In October, 1970, he furnished the initial information which predicated our investigation of the extensive policy operation in Brooklyn, New York, under the control and direction of Joseph Colombo. As you know, electronic surveillance coverage pursuant to Title III was utilized in this investigation. This extremely effective investigative technique was obtained primarily on the basis of data made available by the informant. As a result of his close association with Colombo, he was in a unique position to supply concise information enabling the investigating Agents to strip away Colombo's insulating layers of policy runners, pickup men, and policy drops.

In April, 1971, this investigation culminated in the arrest of Joseph Colombo and 35 of his racket associates. These arrests were a devastating blow to the LCN leadership in New York. *179-19964-151*

Re: [redacted]

The informant has also continued to identify various police officials who have been corrupted by the organized gambling element in New York.

Source has also kept the New York office advised on a current basis regarding the activities of the Italian-American Civil Rights League (IACRL) headed by Joseph Colombo. He has recently advised that veteran LCN leader Carlo Gambino has withdrawn his support of Colombo and the IACRL. In addition, the informant has ascertained that a number of other ranking LCN racket figures are disgusted with Colombo's all-out support and direction of IACRL.

Currently authority is outstanding for the New York office to pay the informant [redacted] on a C. O. D. basis. [redacted] past performance clearly establishes that he is an exceptional informant. It is believed, however, that payments to him [redacted] on a C. O. D. basis rather than the recommended [redacted] would be appropriate.

Informant as reflected in reNYlets has continued to furnish extremely valuable information in a number of noteworthy cases which has resulted in numerous arrests in Bureau cases. Informant has been devoting an increasing amount of time and effort in connection with his "Bureau" oriented activities and in addition because of his problems with local authorities has curtailed his own activities drastically.

Therefore, in view of informant's continuing productivity and since greater demands are being made with regard to information which can be utilized in substantive violations it is recommended that the Bureau authorize continuance of regular payments [] for services rendered as well as expenses incurred. Informant advised on 6/1/71. that he had recently attempted to contact [redacted] in Staten Island and was informed by a relative that [redacted] was not around inasmuch as he was presently "packing" (carrying a pistol), in view of the recent trouble COLOMBO is having with the GALLO mob.

Informant continued that on a daily basis he made several attempts each day since then to contact COLOMBO on 86th Street but without success until 6/7/71 when he went to Cantalupo Realty and from there to the "Pork Store" on 86th Street and saw NICK BIANCO. As he entered the Pork Store,

informant advised he recognized SALLY "BUZZO" (FUSCO) and PAUL BEVACQUA hanging about and carrying concealed weapons. BIANCO then proceeded to tell him that great precautions were being exercised by COLOMBO in view of GALLO's recent actions and that he, informant, should see COLOMBO later that afternoon since he was not presently available. Later on the same date, informant was summoned by BIANCO and told to go to the Piza Catering house. After arriving at the Piza, he spotted COLOMBO, again with bodyguards present and JOE summoned him to a rear private dining room. JOE advised he was extremely upset over GALLO's recent actions especially at this time since the League demanded so much of his time and since he was not in a position to take any action against GALLO since this would further stigmatize his position and the League.

COLOMBO then went on to make disparaging remarks about CUTRONE since CUTRONE was like a "Flag that blew anyway the wind blows". COLOMBO went on to state that it was his intention to exercise extreme caution, to make no overt move against GALLO in the hopes that GALLO would "stay by himself" and leave "us" alone. COLOMBO continued that GALLO has not really made any "major moves" against him but GALLO is merely trying to recruit people to oppose himself. COLOMBO confided that GALLO had had two meetings with SALLY BOY MANGIAMELI but that MANGIAMELI is remaining loyal to him since he advised him of these attempts by GALLO.

In addition, COLOMBO stated that GALLO had beaten up some "hangers on" and had allegedly hurt his hand while choking the mother of one of his own crew. COLOMBO continued that GALLO at night has been barricading President Street and will not allow any cars in the neighborhood. In addition, COLOMBO stated that GALLO had removed all of the Unity Day posters from the shop windows, has demanded that all the shops remain open and has sent his crew up to scrape any civil rights stickers off cars in the neighborhood. COLOMBO further advised that the most dishonoring act by GALLO had been to "chase" ROCCO MIRAGLIA out of the President Street area when he was attempting to pass out Unity Day posters and threatened to kill him if he returned.

COLOMBO continued that in the event GALLO hit one of his, COLOMBO's "crew", that informant should be ready because at that time they would take swift and decisive action and wipe out the entire GALLO mob in one felled swoop.

[REDACTED]

COLOMBO advised informant to be alert for any invitations by GALLO and should informant decide to keep a meeting with him he should be extremely careful since GALLO, in COLOMBO's opinion, is truly "crazy".

Informant advised it was his opinion that COLOMBO is still obsessed with the Civil Rights League and has no intention of taking a "back seat" in its operation.

On 6/10/71, informant advised that he had recently met with JOE COLOMBO at which time COLOMBO confided that during the previous week he had been told that a car containing a number of Negro individuals was observed circling his block many times in the early AM hours. COLOMBO stated it is well known that GALLO became friendly with Negro hoodlums while incarcerated and also believes it is possible that GALLO has enlisted their aid at the present time. COLOMBO concluded however that it is his personal feeling at present that GALLO is merely trying to "intimidate and shake me up" by having such an obvious play utilized. COLOMBO stated he is continuing to press for massive turnout on 6/28/71.

On 6/15/71, informant advised that on the previous day he had had a long conversation with NICHOLAS BIANCO at which time BIANCO expressed great disgust with COLOMBO who BIANCO characterized as "crazy". BIANCO made clear to informant that he intended to "pull away" from COLOMBO and in this regard had purchased a home in Providence and will make a gradual "withdrawal". Informant said BIANCO stated that "we are all going to be arrested, it is inevitable, there is no way out", obviously referring to the fact that COLOMBO was "putting heat" on everyone who is close to him.

On 6/15/71, informant stated he had also had a conversation two days previously with COLOMBO [REDACTED] who is presently [REDACTED] business for COLOMBO. [REDACTED] advised that it was now official that not only will CARLO GAMBINO discontinue his support of COLOMBO but is now withdrawing any of his previous support. [REDACTED] pointed out that JOE DE CICCIO, LCN member in the GAMBINO family, who had been a paid organizer for COLOMBO's IACRL was told to resign from the League and further not to have further dealings with COLOMBO.

Informant related he is also familiar with [redacted], whose names he does not know, but is aware that they both hang out with [redacted] and both are used by [redacted] as errand boys in [redacted] illegal activities. On the following date [redacted] advised he was unable to find any likely registrants since none had the first name of [redacted] or was from the Chicago area.

Informant learned that at the present time a number of these barrels were being held in Customs since the individual who came into the US from Italy as a tourist had planned to take another ship to Canada and to have these barrels placed aboard this ship. Instead Customs apparently confused his request and they were then in Customs and problems were arising concerning their recovery.

On the same date, above information was furnished to Supervisor [redacted] Bureau of Narcotics and Dangerous Drugs, 90 Church Street, NY, NY.

b6 -4
b7C -4

Informant has been contacted on two occasions by the alternate agent.

Information furnished by informant has been corroborated through independent investigation and other reliable informants of the NYO.

[REDACTED]

It is noted the NYO has requested a sizeable increase in informant's regular monthly payments. However, it is felt that the consistently high quality of information furnished by the source and the risks he is subjected to in his role as a member source are commensurate with the requested increase especially in view of today's economic conditions.

It can objectively be said that during the last two years substantial results have been achieved in the Bureau's fight against the menace created by the COLOMBO "family" of La Cosa Nostra. Boss JOSEPH COLOMBO is himself indicted in a highly significant IGB case (Bufile 182-23, NY file 182-120) while numerous COLOMBO "family" members and associates are under indictment or have been convicted.

In the IGB case involving JOSEPH COLOMBO, informant provided the initial information on which this investigation was predicated and continued to furnish detailed information regarding this operation throughout the investigation. This information proved to be of immeasurable importance to the overall investigation.

It can be said without equivocation, that informant has materially contributed to every success the NYO has been able to realize against the COLOMBO "family".

Informant has consistently furnished intelligence information of the highest quality and in addition valuable information in substantive cases which was used for the basis of search warrants, supporting affidavits in title III installations and the like. The informant willingly provided and continues to provide information in substantive matters without regard for his personal well being knowing full well this information will be used in legal proceedings with the high potential of spotlighting or even compromising himself. As a member of organized crime, informant constantly lives with the knowledge that his exposure as a source of the FBI would result in swift and final summary "justice" from his peers.

The COLOMBO "family" is currently on the brink of upheaval. Strong informant information exists that COLOMBO himself has fallen out of favor with his greatest supporters. There is also a significant volume of information that

[REDACTED]

JOSEPH "CRAZY JOE" GALLO is planning to begin hostilities against COLOMBO. It is therefore of utmost importance that sources within the COLOMBO sphere such as this informant be nurtured and maintained to insure that the ultimate destruction of this crime "family" can be effected.

In conclusion, it is the opinion of the NYO that informant's past performance has been such so as to indicate the greatest potential for the future in an area that is among the Bureau's primary responsibilities. It is felt an increase in informant's monthly payments would equitably reward him for his services as well as act as a catalyst for additional effort by the informant. It is the considered opinion of the NYO that in the long run, increased monthly payments to the informant will result in increased returns truly in the best interests of the Bureau.

On 6/24/71, informant advised he had met on a number of occasions captioned subject whom in the past JOE COLOMBO had identified as "being one of us" in "another family". Informant said he has since seen LUPO on a number of occasions while LUPO visited JOSEPH DI FILLIPPO, Consigliieri in the BONANNO "family". Informant said he is now firmly of the opinion that LUPO is under DI FILLIPPO.

On 7/27/71, informant advised that he recently learned that LUPO has an extremely large numbers business which grosses between \$200,000 and \$300,000 per week and that LUPO pays \$10,000 per month in juice. Informant further learned that LUPO had suffered heavily from hits during the past few months and was a half million dollars "in the red". Informant continued he also learned that LUPO at one time attempted to borrow \$30,000 from JOE COLOMBO "to tide him over".

JOSEPH COLOMBO aka
AR
NY 92-1965

On 6/29/71, informant advised he had learned that [redacted] LNU was JOHNSON's assailant at the rally and that [redacted] reacted very quickly after observing JOHNSON shoot COLOMBO and thereafter acted instinctively and when the opportunity presented itself he shot JOHNSON. Informant continued that this was further confirmed when he learned that one [redacted] TNU claimed to have been the original person to wrestle JOHNSON to the ground and that [redacted] observed [redacted] "pump shots" into JOHNSON.

b6 -2
b7C -2

Informant said that [redacted] was involved in a [redacted] and had always been extremely close to COLOMBO. Informant related that since the shooting [redacted] has been an [redacted] and is regularly at the hospital. Informant continued that [redacted] and has steadfastly refused to go "on the lam" claiming his first duty was to [redacted]

Informant continued that he has learned that JOHNSON was "a would be Black wise guy" and hung out in Greenwich Village. Informant said JOHNSON never had the reputation of being a militant or a "kook" and that JOHNSON had often visited social clubs and after hours joints in Brooklyn, New York. Informant said he had heard that JOHNSON once befriended never forgets this and was the type of person who if approached correctly would

[REDACTED]

"do anything" for a price. Informant said he had been told by someone who is close to JOHNSON that this person might be able to furnish the identity of JOHNSON's female companion who was present at the rally and that he would immediately furnish same to the NYO.

Informant continued that approximately thirty minutes prior to the time COLOMBO was shot he had had a discussion with him during which time COLOMBO advised that although GAMBINO was not furnishing him any support for this rally that he had assured GAMBINO that this would be his "swan song" and that in the future he would take a back seat to all the IACRL activities devoting himself to humanitarian causes such as boys camps, hospitals and the like and would refrain from fighting the FBI. COLOMBO stated that they should therefore not be too disappointed if the rally was not a huge success that they had hoped for.

On 7/6/71, informant viewed a series of photographs taken by the NYCPD and the FBI at which time, informant positively identified [REDACTED] LNU in one of these photos. It is noted that this photo revealed that [REDACTED] LNU was apparently carrying COLOMBO's briefcase which was later found to contain a loaded .38 caliber revolver. In addition, informant also identified two bodyguards standing in close proximity to COLOMBO as [REDACTED]. Informant said both these individuals were "with" JOE NOTCH and were expressly furnished to stand close to COLOMBO throughout the day of the rally.

b6 -2
b7C -2

Informant said that during the past week much of the "street talk" centered on MIRAGLIA, BIANCO and NOTCH's failure to either protect COLOMBO or to have at least stayed at his side when COLOMBO was "hit". Instead these individuals who had always been closely associated with COLOMBO and who "ate off COLOMBO like leeches for many years" had, in fact, run away like "frightened rabbits" and had failed to show any "respect" for COLOMBO.

In addition, informant said that there was much talk on the street that JOE GALLO was "playing footsey" with the FBI and the CIA, who had assisted him, GALLO, in setting up JOHNSON to assassinate COLOMBO.

[REDACTED]

On 7/7/71, informant advised that a meeting was recently held at the residence of DICK FUSCO, following the shooting of COLOMBO. In attendance at this meeting were JOE YACOVELLI, Captain CARMINE PERSICO, Underboss CHARLES MINEO, JOE IANNACI, NICK BIANCO, ROCCO MIRAGLIA, Captain VINNY ALOI, Captain JIGGS FORLANO, DUKE SANTORO, MIMI SCIALO and possibly one or two others. At this meeting, MINEO was asked to assume interim leadership of the COLOMBO family but advised because of his poor health and advancing age he had not felt he should take this position and suggested that JOE YACOVELLI be made acting boss of the family. Informant advised that he was of the opinion that as soon as COLOMBO was dead that YACOVELLI would name CARMINE PERSICO as Underboss or Consigliere of the family and that perhaps this could have been one of the factors which would have given PERSICO a motive to set up a hit on COLOMBO as well as the fact that JOE GALLO would logically be assumed to be the person who "gave the contract".

In addition, informant advised that approximately six soldiers who in the past had reported directly to JOE COLOMBO were then assigned to Captains ROCCO MIRAGLIA, and NICK BIANCO. Informant felt this was a "political move" to pacify those close to COLOMBO since, MIRAGLIA and BIANCO were known to be very close to JOE COLOMBO.

Informant said that he had heard comments that it was apparent that JOE COLOMBO had maintained harmony in the family by a very delicate balance of power and had made no provision whatever for any disruption in this balance. Consequently it has left PERSICO with an excellent opportunity to possibly take control of the family since YACOVELLI would never resist PERSICO. Informant further speculated that in the event PERSICO were able to beat his federal case he would undoubtedly kill YACOVELLI and be made boss.

b6 -2
b7C -2

Informant, in addition, has learned that approximately three days prior to above rally, JOE COLOMBO had given a contract to possibly NICK BIANCO and DUKE SANTORO to kill JOE GALLO, BLAST GALLO, MOONEY CUTRONE [REDACTED] since COLOMBO had become completely

[redacted]

disgusted with GALLO. COLOMBO felt that as long as the GALLOs stayed on President Street and operated in their own sphere he would not do anything regardless of their open opposition to the League but that during the recent past GALLO had begun to "take things that did not belong to him" and which obviously belonged to other COLOMBO family members. Informant continued that he had also heard that COLOMBO had GAMBINO's approval for these hits since COLOMBO was able to insure GAMBINO that there would never be complete harmony with JOE GALLO.

Informant advised on 7/15/71, that he learned that on the previous day a meeting was held by JOE YACOVELLI, CHARLES MINEO and JUNIOR PERSICO, MIMI SCIALO, DICK FUSCO, ROCCO MIRAGLIA, NICK BIANCO, VINNY ALOI and possibly others at which time it was explained that YACOVELLI had been in touch with members of the "commission" which apparently presently includes CARLO GAMBINO and CARMINE GRIBBS TRAMUNTI. Informant said TRAMUNTI was recently released from prison and was "sick" over the shooting of COLOMBO. Informant said YACOVELLI was instructed that his most immediate and pressing task was to "hit" JOE GALLO. BLAST GALLO, [redacted] MOONEY CUTRONE and [redacted]

b6 -2
b7C -2

It was explained that even if the GALLO's was obviously his prior desire to hit GALLO and that this wish should be carried out at all costs. Informant said that none of the "fringe people" in the GALLO mob should be touched at the present time so that the GALLOs do not immediately assume a war footing. However, in the event JOE GALLO is "violated" then everybody in the GALLO mob should be killed as quickly as possible.

Informant advised he had never heard anything so clear cut and ruthless since the days of the GALLO - PROFACI war and feels there will be considerable bloodletting in Brooklyn, NY, over this edict.

Informant stated that both GAMBINO and GRIBBS had offered to furnish financial and personnel support to accomplish these hits. However, informant feels confident that PERSICO and his crew would probably be the ones that would handle these contracts. Informant also opined that inasmuch as PERSICO was instrumental in attempting to identify this unknown Negress that it may be possible at the present time that he was not responsible for recruiting JOHNSON and it may have in fact been GALLO especially since the Commission feels so strongly about their "hits".

b6 -2
b7C -2

CLEMENTE-787

[redacted]

Informant continued that the Commission had also instructed that temporarily those soldiers who had previously answered to JOE COLOMBO were not to "report jointly to ROCKY and NICKIE" but were to be assigned to older captains in the COOMBO family. Informant speculated that apparently word of the scorn being heaped upon MIRAGLIA and BINACO as "ungrateful dogs" has become so widespread that they were not being given any responsibility within the family at the present time. In addition, informant felt that the Commission might also be watching PERSICO very carefully and felt that PERSICO's and YACOVELLI's prior decision was "too political".

b6 -2
b7C -2

Informant advised that during the recent past, NICK BIANCO and ROCCO MIRAGLIA have become inseparable and have at least three armed bodyguards with them at all times. [redacted]

COLOMBO bodyguard. Informant stated that he also learned that at least one of these bodyguards was carrying a machine gun at all times. In addition, informant also learned that TONY AUGELLO and MIMI SCIALO and DUKE SANTORO and for that matter all active COLOMBO members are carrying guns since there is so much uncertainty at the present time and not knowing who there "friends or enemies are".

On 7/13/71, informant advised that it appears that CARMINE PERSICO is "on the move" in attempting to gain control of the COLOMBO family as well as the vast resources of the IACRL. Informant advised he learned that PERSICO had advanced \$30,000 cash to the League to continue present operating expenses and in addition, [redacted]

b6 -3
b7C -3

[redacted] volunteered \$20,000 to the League.

Informant advised he also learned that recently one of COLOMBO's brother's-in-law had come to the hospital and had gotten ANTHONY THE GAWK AUGELLO and MIMI SCIALO and advised them that they knew that JOE GALLO would be at a specific location on the Island that night and it might present the excellent opportunity to "hit him". SCIALO advised this individual, however, that because of all the police protection presently on GALLO it would be a "kamikaze mission" and that some time should elapse before this hit was attempted. SCIALO instructed that this individual should stay abreast of GALLO's activities so that he could be hit in the future. Thereafter, SCIALO

[REDACTED]

privately confided that he had no intention of killing GALLO since GALLO had "done nothing to him" and that GALLO was "PERSICO's headache", not mine.

b6 -2

ICARL
NY 92-6210

On 7/26/71, informant advised he recently had a discussion with captioned subject who advised that he was aware "the Commission" had ordered "hits" on the GALLOs and was personally gratified since even before the assassination attempt on [REDACTED] JOE, he was aware that [REDACTED]

[REDACTED] however, that he felt "hits" at this time could hurt the "league" since it would lend further credence to police reports that GALLO had put JOHNSON up to shooting his father. b6 -2 b7C -2

[REDACTED] if these "hits" were to be delayed for a year or so, people would have forgotten the newspaper publicity. Informant advised he felt [REDACTED] was "feeling him out" and thus made no comment or commitment except to say "it would be nice to know what JOE would want".

CARLO GAMBINO aka
AR
NY 92-657

On 8/9/71, informant advised that over the previous weekend he had heard that CAPOs in the COLOMBO LCN "family" contacted individuals under them to advise them of the death of Mrs. CARLO GAMBINO. The Capos, among them JOHNNY "BATH BEACH" ODDO, CARMINE PERSICO, and JOSEPH YACOVELLI, advised that if the men had a personal acquaintanceship with the late Mrs. GAMBINO or CARLO GAMBINO himself, it was permissible to attend Mrs. GAMBINO's wake and funeral.

Informant stated that members of the COLOMBO "family" are fully aware that GAMBINO withdrew his support from the IACRL and Italian American Unity Day which was held 6/28/71.

Informant interpreted the edict of the Capos as evidence of a rift between the COLOMBO and GAMBINO "families".
COLOMBO 789

[REDACTED]

It is informant's analysis of the dict is that it was permissible to mourn Mrs. GAMBINO if a personal relationship existed, but that there would be no show of respect from the COLOMBO LCN "family" merely because of GAMBINO's stature as an LCN Boss.

Informant advised on 7/15/71, that through PERSICO and YACOVELLI he had obtained a colored photograph of the Negress who accompanied JOHNSON on the day JOHNSON shot COLOMBO. Informant thereafter made this photo available to the NYO for a limited time whereupon a black and white copies were made. Informant stated it was apparently known that he had a friend who was close to JOHNSON and informant was instructed to display this photo to his friend in an effort to further identify this Negress so that she could be snatched and made to tell "who hired JOHNSON to hit COLOMBO". Informant advised that in the event he is successful he would notify the NYO, before any further actions were taken on his part.

It is noted above information has not been disseminated to the NYCPD inasmuch as it is felt to do so might seriously jeopardize informant's position.

ANTHONY AUGELLO
AR
NY 92-2793

On 7/16/71, informant advised that on a nightly basis AUGELLO, MIMI SCIALO and GREGORY SCARPA are at Roosevelt Hospital where they act as "guards" until 11 or 12 each night. Informant advised that all appear to be armed and specifically he had observed AUGELLO on the previous evening carrying two revolvers. Informant said AUGELLO is a very loud, boisterous and obnoxious individual who thinks he is a "cowboy". Informant said he has been observing AUGELLO in a Lincoln auto of late.

The above information was disseminated to the NYCPD on 7/22/71. On the same date, the NYCPD advised that their department acting solely on information furnished by the NYO observed AUGELLO driving in Brooklyn. AUGELLO was stopped and had neither a driver's license nor a motor vehicle registration. During the course of questioning, a police officer observed the barrel of a revolver

[redacted]

protruding from under the front seat of AUGELLO's auto. A further search revealed two loaded .38 caliber revolvers. AUGELLO was thereupon placed under arrest for possession of dangerous weapons.

JOSEPH COLOMBO
AR
NY 92-1965

On 7/23/71, informant advised that he had learned the following information during the recent past while he had made numerous visits to see JOE COLOMBO at Roosevelt Hospital.

Informant related that there are at least five or six people constantly at Roosevelt Hospital who are carrying guns since it is feared that whoever was behind the attempted assassination of COLOMBO might make an additional "grand stand" effort to "finish him off". Informant said he himself had personally observed on numerous occasions that [redacted] was constantly in possession of a gun which he kept tucked in his belt under his shirt. Informant said [redacted] never leaves [redacted] side and appears to be devoted to protecting him at all costs. Informant said [redacted] usually visit the hospital in the later afternoon between three and four PM on a daily basis.

b6 -2
b7C -2

In addition, informant said he is aware that [redacted] who is primarily [redacted] at the present time for NICK BIANCO was observed by him in possession of a machine gun or possibly a carbine. Informant said that BIANCO usually drives his own car and that [redacted] usually follows close behind him in another vehicle usually in company with another individual unknown to informant.

Informant advised that PAUL BEVAQUE has been a personal body guard for ROCCO MIRAGLIA and is usually in possession of at least two guns one of which he keeps in his belt and another within easy reach of his auto. Informant said like BIANCO, MIRAGLIA does not allow his bodyguard in his own personal car since if they were caught in his car with a weapon, MIRAGLIA could also be arrested.

b6 -2
b7C -2

[redacted]

In addition, informant advised that he had learned that the IACRL Office at 84th Street and 17th Avenue, was being used as the "armory" for the COLOMBO family and in addition to the truck which is kept there, there is also considerable technical equipment such as radios, cameras etc. Informant said recently while there he observed individuals at the club carrying revolvers and that in a small room in the rear there was a large cache of various weapons.

Informant said virtually every active member of the COLOMBO family has been carrying a weapon since the shooting of COLOMBO. He stated that there is considerable uncertainty as to exactly who shot COLOMBO and although none will admit they believe it was "GALLO inspired" he nevertheless feels that each one secretly may believe this and may feel there will be an "all out war" in the near future.

Based on the above information, the NYO conceived a plan to seek body and automobile search warrants on individuals identified for violation under Jurisdiction Alcohol Tax and Firearms (AFT) Division, US Treasury, (Possession of firearms by previous convicted felon).

b6 -2
b7C -2

Informants of the NYO specifically identified

[redacted] PAUL BEVAQUE, [redacted]

[redacted] The above all are convicted felons.

Plan outlined above discussed with Strike Force Attorneys EDNY and ATF officials. Strike Force Attorneys agreed to issue search warrants for person and automobiles of above individuals.

On 7/28/71, ATF under direction of Bureau Agents executed warrants on [redacted] in vicinity of Roosevelt Hospital where COLOMBO was confined.

b6 -2
b7C -2

Searches resulted in recovery point thirty eight caliber ammunition and holsters but no weapons. Immediately prior to execution of warrants, agents observed [redacted] transferring package from their auto to another auto. Second auto subsequently identified as auto being leased by COLOMBO's son, JOSEPH, JR. This car located, surveillance instituted and based on surveillances of agents, search warrant obtained. CLEMENTE-792

[REDACTED]

Execution of this warrant resulted in recovery of three loaded handguns and ammunition plus large amount of Italian American Civil Rights League literature and paraphernalia.

On the same date, surveillance instituted on PAUL BEVAQUE. BEVAQUE surveilled from residence in Long Island to home of COLOMBO capo ROCCO MIRAGLIA and thereafter to headquarters of IACRL in Brooklyn. Search of BEVAQUE revealed one loaded point thirty eight caliber revolver on his person and one in the trunk of his auto. Latter gun determined to be part of interstate shipment stolen from JFK Airport, NYC, April, 1969.

BEVAQUE placed under arrest charged with possession of firearms by convicted felon.

Subsequently Strike Force Attorney authorized additional charge of possession of goods stolen from interstate shipment.

BEVAQUE to be arraigned later the above date.

Strike Force, EDNY, currently weighing authorization for arrest of [REDACTED] in connection their transporting package containing firearms to auto of COLOMBO, JR. and arrest of COLOMBO, JR. on charges aiding and abetting.

JOSEPH ANTHONY COLOMBO aka
AR
NY 92-1965

On 11/10/71, informant advised he learned that a meeting was recently held the previous week at a private residence on 77th Street in Brooklyn, NY, which included the following COLOMBO family members:

VINCENT ALOI, JOSEPH YACOVELLI, CARMINE PERSICO, NICK BIANO, ROCCO MIRAGLIA, CHARLES PANARELLA, who was representing the then ailing JOHN ODDO, GREGORY SCARPA and LOLLY DI PIERRO.

It is noted with the exception of DI PIERRO and SCARPA other members are current active capos in the COLOMBO family. Informant said that this meeting was presided over in a triumvirate manner by ALOI, YACOVELLI and PERSICO. Informant said the meeting was held partly to discuss a major conflict of personalities which had erupted between LOLLY DI PIERRO and JOSEPH "RED" TRAINA, who informant understood to be a captain or acting captain in the CARLO GAMBINO family. It was brought up during this meeting that DI PIERRO had acted in a stupid name calling type argument with TRAINA and that DI PIERRO had used members of his "crew" to assault and threaten some of TRAINA's "crew". Informant said he heard that DI PIERRO was severely criticized and was told in no uncertain terms by ALOI and YACOVELLI that they would not tolerate any further actions of this sort and if necessary would end the matter "their way" intimating that if DI PIERRO did not shape up they would kill him. After this incident, DI PIERRO was dismissed and they thereafter began to question SCARPA concerning the members in his "crew". Informant said SCARPA acted respectfully and handled the interview much to their satisfaction.

Informant stated based on this it was his opinion that SCARPA was probably being considered for advancement to capo within the COLOMBO family after COLOMBO's successor is appointed permanently.

SAC, New York, requests authority to continue previous authority to pay [redacted] on a C.O.D. basis.

This source is a highly placed member of the Joseph Colombo "family" of La Cosa Nostra in New York. He has been a top echelon informant since March, 1962, and is one of the most outstanding sources developed in our Top Echelon Program. During the past six-month period he has continued to supply a large volume of quality information.

As a result of information furnished relating to an extensive policy operation conducted in Brooklyn, New York, under the control and direction of Joseph Colombo, to date 15 persons of the 37 arrested in connection with this operation have been convicted.

Because of the informant's unique position he was able to furnish the New York office with pertinent details relating to activities occurring within the Colombo family following the shooting of Joseph Colombo at the Italian American Rally in New York. In this regard this informant furnished the identity of the individual who murdered Jerry Johnson, the Negro who shot Colombo.

This informant has also been able to furnish detailed information relating to possible violence between the Colombo family and the Joseph Gallo dissidents, who are threatening to break away from the Colombo family by force if necessary.

Re: [redacted]

The informant has advised that with the uncertain leadership currently in the Colombo family due to the inability of Colombo himself to control his operations it is apparent that as soon as the new leadership takes over the informant will be made a "capo" within the organization.

During the past several months the informant in addition to the voluminous information furnished concerning daily activities of many La Cosa Nostra figures in New York City has furnished pertinent information concerning several gambling operations and has furnished the New York office with sufficient information with which they were able to recover a \$30,000 load of stolen furs.

b2 -3

Informant was paid [REDACTED] for information and expenses incurred by him during the periods: 3/11 - 4/10; 4/11 - 5/10; 5/11 - 6/10. Informant will be paid a like sum for information and expenses for the period 6/11 - 7/10/72.

Informant is considered to be emotionally stable and reliable and has not furnished any information known to be false. As reflected in instant letter and from various communications to the Bureau sent during recent months, it is apparent this informant has been furnishing timely and accurate information regarding top level activities occurring in the NY LCN. Source during this period also was directed to travel to Miami, Florida, and there contact JOHN "BATHBEACH" ODDO in an effort to determine if a high-level LCN meeting was planned in Miami during Easter weekend. Informant handled this assignment with dispatch and determined that if such a meeting were planned, ODDO, a highly respected elder statesman for the LCN, was not aware of it.

This informant has also furnished information on numerous substantive cases pending in the NYO, many of which have resulted in arrests.

It is recommended informant be continued as a regular paid informant by the NYO, to be paid on a C.O.D. basis of up to [REDACTED] for services as well as expenses incurred.

b2 -3

Informant was contacted on three occasions by the alternate agent during this period. [REDACTED]

b2 -2

It is noted that much of the information furnished by source which would justify a re-authorization of continued payments has already been furnished the Bureau in the form of teletypes and airtels. There follows however, a concise summary of the information.

On 3/10/72, source learned from CHARLES MOOSE PANARELLA, acting Capo in the COLOMBO family, that it is apparent that some "hits" had been planned and at that time informant felt the GALLOs would be murdered. It is noted, on 4/10/72, JOSEPH GALLO was murdered by the COLOMBOs.

On 3/22/72, source learned that [REDACTED] "scratching for money" and that the IACRL was "dead broke". It is noted, subsequent to this, the IACRL was indicted by the EDNY for fraudulent bank loan application.

JOSEPH DA MENICO aka

AR; TFIS

NY 92-6665

On 3/23/72, source advised he learned on that date captioned subject and a confederate were traveling to Los Angeles to "case" a jewelry salesman who was carrying a large quantity of diamonds. Source advised of the individual who was setting up this job and stated he would learn of the results. It is noted subsequent surveillances conducted by the Los Angeles Office confirmed informant's information but that no stick up ever occurred since DA MENICO was unable to pull off this "score".

JOSEPH GREGORY GALLO

AR

NY 92-4123

On 4/7/72, source advised that the murder of GALLO was engineered by the PERSICO crew as a retaliation for shooting JOE COLOMBO and incidents created by GALLOs. Source said he learned that the PERSICO people met with representatives of other LCN families the previous week and conclusions reached were that 5 people had to be killed including two or three informants.

[REDACTED]

It is noted that subsequent to the murder of GALLO, JERRY CIPRIO as well as RICHARD GROSSMAN were both murdered and were suspected of being Federal informants.

b6 -2
b7C -2

On 4/12/72, source said he met CHARLES "MOOSE" PANARELLA, Acting COLOMBO Captain, the previous night and was advised that COLOMBO family was "going back to the old days". He said all GALLO people are to be "exterminated" and all loyal COLOMBOs are to "hit" anyone connected with them. No "permission" or "clearance" needed, but after "hit", he was to be personally advised. Source said he volunteered to "take out" [REDACTED] or "MOONEY" CUTRONE, although source confided he had no intention in participating in killings. PANARELLA also advised that after elimination of the GALLOs "selected kids" who participated in "hits" would be eligible for "membership in Brugad" (PANARELLA's words). PANARELLA also said ALPHONSE "ALLIE BOY" PERSICO had been secretly "made" and was acting capo for his brother CARMINE PERSICO.

On 4/18/72, source advised early that day he had been summoned by CHARLIE "MOOSE" PANARELLA to a "sit". PANARELLA advised he should hold back any proposed "hits" which source advised were planned against the GALLOs until further instructions from him. PANARELLA then said "there appears to be doves on the horizon". Source stated based on PANARELLA's comments he feels that the GALLOs are attempting to make peace.

On 4/22/72, source advised that PANARELLA mentioned that [REDACTED] Source stated he doubted very much if the COLOMBO people would "hit" this woman over her knowledge, stating it would not be proper.

b6 -3
b7C -3

PANARELLA expressed total disgust with the manner in which the killing of GALLO was handled, stating it was a very sloppy job and not very well planned.

PANARELLA also mentioned to the group that JERRY CIPRIO (slain 4/10/72) was a "stool pigeon" and even had a post office box number to which he reported information.

ALPHONSE PERSICO aka
AR
NY 92-6703

[redacted]

On 4/21/72, source advised that a few days previously he met with ALPHONSE PERSICO in Brooklyn, concerning a problem one of his, informant's, men had with a friend of PERSICO's. Source said this was an amiable meeting and the problem was resolved. Source observed, however, that on this occasion he noted that PERSICO was carrying a gun.

Source continued he also learned that ALPHONSE had taken over his brother CARMINE's horse farm in Saugerties, NY. Source said he heard the PERSICOs had always used this farm as a "hideout" and an "arsenal".

It is noted that based on the foregoing, a fisur was instituted on 4/22/72 at the Blue Mountain Horse Manor, Saugerties, NY, which is owned by CARMINE PERSICO. Fisur continued and on 4/23/72 agents observed AL PERSICO and JERRY LANGELLA shooting rifles on the far end of the property.

b6 -2,3
b7C -2,3

Surveillance continued and on 4/24/72 at 11 a.m. ALLIE BOY PERSICO and JERRY LANGELLA observed entering 1972 Buick Skylark, and exiting property with 1972 Buick Electra closely following, containing 3 individuals previously observed. Agents stopped vehicles approximately 1½ miles from property and PERSICO immediately taken into custody without incident. Agents following 1972 Buick Electra observed driver of this vehicle reach over rear of seat and throw object down and also observed white male in the rear of the car shoveling with hands object underneath right front seat which was occupied by a white female. Subjects removed from vehicle and two weapons described as follows observed by Buagents partially under the right front passenger seat: .32 caliber Harrington and Richardson, 5 shot revolver, SN 41600 and 38 Special Colt Cobra, SN A89204. Driver identified as CHARLES "MOOSE" PANARELLA, acting Capo. COLOMBO family. Passenger identified as [redacted] Individual in rear of vehicle identified as [redacted]

NY S Police charging LANGELLA with unlawful possession of fireworks, a class B misdemeanor, and possibly driving without a license. NYS Police also charging PANARELLA, [redacted] with possession of arms, a Class D Felony.

On 4/26/72 source advised he met with PANARELLA who advised that he (PANARELLA) is in a very despondent mood over his recent arrest by Buagents. He complained that the "FBI came out of nowhere" and before we knew what happened we were surrounded by agents. MOOSE complained that he attempted to "stash" his "iron" under the seat but this was observed by the agents. Source stated PANARELLA blames the GALLOs for his misfortune and he has renewed his dedication to kill all of them. Source observed PANARELLA was carrying a gun and will be staying [redacted] CLEMENTE-828

[redacted]

On 5/19/72, source advised he learned that JOHN "BATHBEACH" ODDO, COLOMBO Captain, had come to NYC and a big sit was held concerning the present war with the GALLOs. It was agreed by all that the only ones benefitting from this situation was the FBI and the police, namely [redacted]

b6 -2
b7C -2

[redacted] In addition, it was mentioned that the war demanded that both sides be armed at all times giving the FBI the option of "picking us off at will, namely the arrests of PERSICO, PANARELLA, etc. It was further agreed that now everyone is in trouble with the law and that JOSEPH YACOVELLI himself is "on the lam". It was further agreed that since VINNIE ALOI was acting boss when the war was declared it would be impossible for him to have any part in trying to make peace with the GALLOs. Consequently, it was decided that ODDO and JOE BRANCATO, acting captain for SONNY FRANZESE, would both be named as acting bosses of the COLOMBO family which might facilitate a peaceful agreement. ODDO confessed to source he "wanted no part of it" but would be forced to make an effort and then try to "step down". Source is certain that ODDO will only make a token effort and would try to return to Miami, Florida as soon as possible.

Source continued that subsequent to above meeting with ODDO, he learned from PANARELLA that the peace negotiations had little choice of success, but that they would be forced to abide by it until it was resolved. PANARELLA continued that he also learned that GREGORY SCARPA is on "top of the GALLO hit parade" because the GALLOs learned that SCARPA's brother, SALVATORE, is the owner of the Circus Bar, Flatbush Ave., Brooklyn, NY, and that occasionally they hang out there. In addition, source learned that the GALLOs also had 2 garages on Bay St. in S.I. that they were "working" from since they knew SCARPA resided on S.I. PANARELLA pointed out that he feared that SCARPA would learn of these efforts of the GALLOs and react by "betting" some GALLOs which might further prevent a peaceful settlement and for the reason had "ordered him off the street". Source advised based on above he is certain that the COLOMBOs have a spy within the GALLO crew who is telling them of all GALLO strategies.

On 5/9/72, source advised that on 5/8/72, he learned from JULIA "BATHBEACH" ODDO, COLOMBO Captain, that he was prevailed upon to continue his efforts to arrange for a sit with the GALLOs for at least another week. ODDO noted the GALLOs seem unwilling to attend any meetings for fear they will be double crossed.

[redacted]

On 5/10/72, source advised he had been in conversation with ERNEST LA PONZINA, acting captain for RICHARD FUACO, who advised they were hopeful that peace could be made with the GALLOs and that "this stupid war" should be ended.

On 5/17/72 source advised he had learned [redacted] has been aligned with the GALLOs but is staying in [redacted] had recently contacted [redacted] a close and trusted friend, and advised [redacted] that he should tell TONY THE CHIEF BONASERA, a COLOMBO soldier, that the GALLOs intend to make hits on GREGORY and SALVATORE SCARPA. Source opined that [redacted] is trying to stay close to long time friends who are in the COLOMBO family but who are not openly at war with the GALLOs.

b6 -2
b7C -2

Source continued he heard on the previous Tuesday that JOHNNY "BATHBEACH" ODDO had returned to Florida but that peace efforts were still being made by JOSEPH BRANCATO who remains one of the acting bosses of the COLOMBO family.

On 5/23/72, source advised he heard VINCENT ALOI has been made the boss of the COLOMBO family and is no longer considered an acting boss. Source said that ALOI in company with ROCCO MIRAGLIA and NICHOLAS BIANCO have been meeting regularly with FUNZIE TIERI, acting boss of the GENOVESE family, and CARLO GAMBINO, in an effort to make peace with the GALLOs. Source said that JOHNNY "BATHBEACH" ODDO and JOSEPH BRANCATO have been named as the official mediators in the war. Informant continued that the entire GALLO crew has been granted amnesty and have the option that they could go to any LCN family they felt they would be comfortable with and "turn themselves in" and no harm will befall them. Source stated the only exception to this peace offer was MOONEY CUTRONE who must go to his own family and his fate would be decided by them. Source pointed out that the above holds true because so far the war that has been going on has not been turned into the Commission as a complaint. Source stated it is felt so far that the Commission feels what has been done was right. Source continued that if the COLOMBOs at this point violate the peace, the whole COLOMBO family would be brought before the Commission and that they would lose their family independence. The GALLOs in the meantime have been told that if they don't come in soon, not only will the COLOMBOs be looking to kill them but the entire country will have an open contract. Source stated so far no response has been made by the GALLOs since it is felt that they are attempting to kill at least 2 reputable COLOMBOs so that they can go in with dignity.

b2 -2

[redacted]

Source continued that in addition to the above, he learned that recently [redacted] met with BUSTER ALOI, [redacted] and possibly JOHNNY "BATHBEACH" ODDO, in Miami, at which time [redacted] advised he was aware [redacted]

b6 -2
b7C -2
b7D -6

[redacted] Source also advised that JOHN "BATHBEACH" would soon be returning to NY from Miami.

Source continued he also learned through a meeting with JOSEPH BRANCATO, MIMI SCIALO and CHARLES PANARELLA that after GENNARO CIPRIO was murdered, the police in searching his body found a RO Box number in his possession which was checked out and found to go directly to the Feds. Source said for this reason they are now certain that CIPRIO was an informant and that at present the Feds are trying to find out how the COLOMBOs learned that CIPRIO was an informant. Source said that the Feds now fear they have a leak in their outfit.

Source stated many of the active COLOMBO family members have been assured that after the new peace has been accomplished there will be a major re-organization of the hierarchy in the COLOMBO family and that consideration will be given to making new members.

[redacted]
NY 92-5084

b6 -2
b7C -2

On 6/19/72, source advised he learned on the previous Saturday, [redacted] was home and received \$300,000 in either stolen or counterfeit bearer bonds which were supplied by one [redacted] LNU who resides on L.I. Source continued that this delivery was arranged through [redacted] LNU who lives in Brooklyn and who is big in stolen securities.

Source said this deal allegedly involves 2 million in securities and that after [redacted] pays for the \$300,000 he will receive the remainder of the package. Source said he may know before hand when the securities are to be delivered to [redacted] and will advise the writer.

[redacted]

On 7/10/72, source advised he had been told by CHARLIE PANARELLA that the war with the GALLOs was just about ended. PANARELLA explained that the only thing to make it official was to have MOONEY CUTRONE attend a sit down but that CUTRONE had been acting like a "bashful bride" and has been avoiding and finding excuses not to make such an appearance.

b6 -2
b7C -2

Source also learned that during the past weekend, [redacted] had asked permission from JOE BRANCATO to make an unknown unrelated hit but that BRANCATO had informed [redacted] that if he did this hit he could not allow the victim to be found and that he would have to "bury the stool". BRANCATO explained that "some of our friends are away" (probably referring to JOSEPH YACOVELLI [redacted] and that any obvious rub outs would be attributed to the GALLO-COLOMBO war and that they were trying to avoid publicity at all costs.

JOSEPH DA MENICO;

NY 91-11576

It is to be noted that the NYO after an intensive investigation of a Brooklyn Bank robbery, identified subject and numerous others involved in same and planned to make mass arrests on 7/19/72. It is noted however, that the exact location where DA MENICO was staying was not known. Therefore, on 7/18/72, source was contacted at which time he advised that DA MENICO was residing in an attic apartment at 1348 77th Street, Brooklyn. Source continued that he had recently learned that DA MENICO was involved in a recent bank burglary wherein DA MENICO with the Holmes employee entered the bank and shut the alarm off. The bank was subsequently burglarized and DA MENICO received a substantial portion of the loot. Source further learned that sometime previously the same Holmes guard, DA MENICO, [redacted] as well as [redacted] had burglarized Markels Jewelry Store in Brooklyn. Source said he also learned that the [redacted] the building where DA MENICO lived also participated in this burglary as a lookout and was known to informant as [redacted]

SAC, New York, recommends authority be granted to continue payments to captioned source [redacted] on a C.O.D. basis. Special Investigative Division concurs with this request.

The informant is a highly-placed member of the Joe Colombo "family" of La Cosa Nostra who has been an informant since 1962. He has established that he is an exceptional informant who has made a most substantial contribution to our drive against organized crime. During the past six-month period, he continued to be a prolific source of valuable data.

The informant has kept the New York office supplied with timely information relating to the gangland feud between the Gallos and Colombos. Prior to the slaying of Joe Gallo, he advised Gallo had been scheduled for a "hit" by the Colombo "family." In addition, he reported the murders of Jerry Ciprio and Richard Grossman resulting from the fact that they were suspected of being informants.

With respect to the Gallo murder, the informant noted Carmine Persico was behind this action and had discussed it with representatives of the other LCN "families" in New York.

Re:

Source determined that Alphonse Persico, brother of Carmine, had a horse farm in Saugerties, New York, which he utilized as a hide-out and an arsenal. Based on this information, surveillances by Bureau Agents revealed Alphonse Persico and Jerry Langella were shooting rifles in an area on the horse farm. Agents of the New York office and representatives of the New York State Police stopped two vehicles on 4/24/72 departing from the horse farm and took them into custody for carrying weapons. Among those arrested were Alphonse Persico, Jerry Langella, and Charles Panarella, leading members of the Colombo "family."

The informant further advised that as a result of pressure from the FBI and other investigative agencies, vigorous efforts are underway to settle the Gallo - Colombo feud.

The informant continues to be of assistance in other racket activities in the New York area. As a result of his information, which was disseminated to Secret Service, an unknown subject involved in an extensive counterfeiting operation was identified and thereafter arrested by Secret Service.

ACTION:

In view of the proven capability of the informant to supply extremely valuable information relating to organized crime activity which is not available from other sources, it is recommended authority be granted to continue to pay him on a C.O.D. basis for a six-month period. Attached for your approval is an appropriate letter.

Attached teletype reports that a New York informant recently met with Salvatore Profaci, son of former La Cosa Nostra (LCN) "boss" Joseph Profaci. Profaci said he recently attended funeral in Detroit (probably William Tocco - prominent LCN member, buried 6/1/72). Profaci received \$14,500 from "boss" of St. Louis (Joseph Giardano) LCN "family" to be given to Joseph Colombo "family." This payment was said to be one of two annual payments given to Colombo as his share of junket activity to Las Vegas Dunes Hotel. Profaci requested informant to arrange meeting between him and Vincent Aloï, acting "boss" of Colombo "family." Informant contacted capo Charles Panarella who will arrange meeting between Joseph Yacovelli and Profaci. Panarella said that while Aloï is "boss," Yacovelli "calls the shots."

INFORMANT POINTED OUT THAT SALVATORE, ALTHOUGH "NOT MADE" STILL ENJOYS THE HIGHEST RESPECT IN LOI CIRCLES. PROFACI ADVISED HE HAD RECENTLY BEEN IN DETROIT, MICHIGAN, WHERE HE ATTENDED A "FAMILY" FUNERAL IN WHICH "FRIENDS OF OURS" FROM ALL OVER THE COUNTRY WERE IN ATTENDANCE. HE OBSERVED HE WAS THE ONLY PERSON FROM NYC AT THIS FUNERAL AND HE FRANKLY WAS VERY EMBARRASSED AT THE LACK OF RESPECT BEING SHOWN BY THE NY FAMILIES. HE STATED WHILE AT THIS FUNERAL, MANY OF "OUR FRIENDS" APPROACHED HIM IN AN EFFORT TO FIND OUT WHAT WAS HAPPENING IN NYC TO WHICH PROFACI HAD TO EXPRESS IGNORANCE. A SITDOWN BETWEEN HIM AND VINCENT ALOI, PRESENT ACTING BOSS OF THE COLOMBO FAMILY. AT THIS TIME, PROFACI ALSO ADVISED HE WAS ATTEMPTING TO CONTACT CHARLES PANARELLA SINCE "THE BOSS FROM ST. LOUIS" HAD GIVEN HIM FOURTEENTHOUSAND FIVE HUNDRED DOLLARS TO DELIVER TO THE COLOMBO FAMILY IN NYC. IT WAS EXPLAINED TO PROFACI THAT A NUMBER OF YEARS BACK, JOSEPH COLOMBO AND THE LOW BOSS FROM ST. LOUIS HAD SET UP A JUNKET FOR THE DUNES HOTEL IN LAS VEGAS AND FOR THIS EACH RECEIVED FIFTEEN THOUSAND DOLLARS TWICE A YEAR. PROFACI CONTINUED THAT THE INDIVIDUAL WHO DELIVERED THIS MONEY FROM LAS VEGAS TO ST. LOUIS WAS USUALLY GIVEN FIVE HUNDRED DOLLARS FOR EXPENSES. PROFACI CONTINUED THAT APPROXIMATELY ONE YEAR AGO THE DUNES WAS SOLD AND THE NEW MANAGEMENT DISCONTINUED ALL JUNKETS BUT THE BOSS FROM ST. LOUIS WAS INFLUENTIAL ENOUGH TO ARRANGE TO HAVE THIS JUNKET RETAINED.

INFORMANT CONTINUED THAT HE LATER APPROACHED CHARLES PANARELLA, ACTING CAPO, IN EFFORT TO ARRANGE A MEET BETWEEN PROFACI AND ALOI, AT WHICH TIME PANARELLA STATED IF PROFACI REALLY "WANTS TO KNOW WHAT'S GOING ON" HE WOULD ARRANGE FOR JOE YACOVELLI TO MEET WITH PROFACI. PANARELLA SAID THAT ALTHOUGH ALOI IS THE "BOSS" YACOVELLI "CALLS THE SHOTS".

2 ReNYtel to Bureau, 1/21/73, in case entitled, "UNSUBS; Theft of Jewelry Value \$350,000 from Votive Shrine of Regina Pacis RC Church, Brooklyn, NY; ITSP-MT", NYfile 87-69576.

b2 -1
b6 -1

The following summary of informant's exceptional services under extremely sensitive circumstances is set forth:

On 1/11/73, [REDACTED] advised SA [REDACTED] that CHARLES "MOOSE" PANARELLA, a Capo in the COLOMBO LCN family, met with him on 1/11/73, and indicated to source that two young individuals had stolen the Regina Pacis jewels and that he (source) was to "handle the disposition" of the jewels.

On 1/12/73, source advised that [REDACTED] both young Italians who reside in Brooklyn, NY, were the individuals who stole the jewelry. He said that both are "hopheads" (addicted to pills). Source said that the jewels consisted of two crowns, four stars and one earring.

b6 -2
b7C -2

He said that he felt the thieves did not know the significance of the theft and had voluntarily surrendered the jewels to PANARELLA. Source said that PANARELLA had scheduled a meeting with him to discuss the jewels. *er*

On 1/14/73, source advised that on 1/13/73, CHARLES PANARELLA contacted him and gave him the jewelry. PANARELLA instructed source to determine the "breakdown" value of the jewelry since he was in need of money and was considering turning them into cash.

179-1996-165
Informant, although physically in control of the treasure for the time being was nevertheless in no position to "give up" the jewels without appearing to be cooperating with the law and in particular with the FBI since the Bureau's interest was not readily known in view of the intense local "heat" brought to bear by the

NYCPD. There was the remote chance also that the informant's trustworthiness and judgment in a delicate matter was being tested by certain elements in the family namely the PERSICO crew with whom there has been little love lost in the past.

b7E -1

[redacted]

Source [redacted]
[redacted] previously advised that ALPHONSE PERSICO, Acting Capo, COLOMBO LCN family, is an extremely egotistical person who is easily conned and is fond of the idea of being considered a "boss".

b2 -1
b6 -1
b7C -1
b7D -1

When PERSICO was arrested by Buagents on 4/24/72, he told the arresting supervisor, SA [redacted] that he was frankly impressed with the FBI's handling of the arrest. He said that if it ever were necessary to confront him again that all that would be necessary would be for SA [redacted] to call him and he would follow any instructions. Accordingly when PERSICO was to be arraigned on 8/15/72 on federal charges, in the SDNY, SA [redacted] instructed him to report, which he did. At that time, PERSICO's bail was raised from \$5,000 to \$100,000.

On the basis of this background information, it was decided that SA [redacted] would call PERSICO advising him of the Bureau's interest in this matter and noting that he could not understand how even LCN could sanction or condone such an "unholy act". PERSICO replied that he would make inquiries and attempt to "reach out".

This was done because it was felt that PERSICO would contact PANARELLA which would enable the source to return the jewels to the FBI on PANARELLA's orders thereby gaining recovery of the jewels and providing full protection to this valuable informant.

[REDACTED]

On 1/16/73, source was told by PANARELLA to be available for a "sit down" on 1/17/73.

On 1/18/73, source advised that a meeting the previous night had included PANARELLA, PERSICO, BENJAMIN LO CICERO, ANTHONY LA PONZINA and SAL FUSCO. At this meeting, PANARELLA repeated many of the points which had been made by the informant on instructions from the NYO.

PERSICO asked if the informant would object if the jewels were returned. Informant replied that he would do anything to help the "family". At this point, both PANARELLA and PERSICO hugged and kissed the informant. PERSICO said that he desired to contact a priest who would then "go to MALONE, the boss of the FBI" (ADIC JOHN F. MALONE) and arrange for the return of the jewels.

Source said that PERSICO indicated his reasons for wanting to make the return to the FBI was that the NYO supervisor had threatened an intensified investigation of the COLOMBO "family" if the jewels were not recovered. He said this authority had come from Washington D.C. It is noted that no such threats were made and source feels this was PERSICO's justification for the return of the jewels through the FBI.

In the interim, police pressure intensified in the case as the three drug addicts who brought the gems to the source were arrested and apparently were cooperating inasmuch as the source was now under constant surveillance.

Informant then reminded PANARELLA that the jewels should be surrendered to the FBI as soon as possible. PANARELLA quickly agreed and said the jewels would be returned to the FBI early in the next week.

On 1/20/73, PANARELLA contacted the source in a highly excited state and advised that [REDACTED] a former NYCPD Officer, had determined that if the jewels were not returned immediately both PANARELLA and the source would be indicted and arrested. PANARELLA instructed source to turn the jewels over to him in a luncheonette in Brooklyn.

b6 -4
b7C -4

On 1/20/73, source met with PANARELLA to return the jewels. Source emphasized to PANARELLA again the advisability of returning the gems to the FBI rather than the NYCPD. Source suggested they be left in public lockers such as are available at Grand Central Station NYC, and an anonymous call be made to the FBI. PANARELLA agreed with the informant and said he would contact ALPHONSE PERSICO accordingly.

[redacted]

This suggestion was finally followed at 11:59 AM on Sunday, 1/21/73, and the captioned jewels were recovered by Buagents led by ADIC MALONE.

b2 -1,2

[redacted] demonstrated a sustained coolness and ability to follow Bureau instructions precisely, even while maintaining a difficult posture. The concomitants of this case could hardly have been greater inasmuch as (1) the Bureau received extensive favorable publicity; (2) the recovery of \$350,000 of gems with great religious significance was achieved, and (3) the informant's timely suggestions and action under pressure enhanced his position with the PERSICO faction of the COLOMBO family.

In light of the above-outlined sequence of events and in recognition of [redacted] loyal and valuable services to the Bureau, it is requested that a lump sum payment to him of [redacted] be authorized at this time.

SAC, New York, requests authority to make a lump sum payment of [] in connection with the recovery of \$350,000 in stolen gems from the Shrine of Regina Pacis Catholic Church in Brooklyn, New York.

b2 -3

Above noted theft occurred in January, 1973, and received wide-spread publicity in the New York area. These are the same jewels that were stolen several years ago and returned to the church through the intervention of noted La Cosa Nostra (LCN) chief, Joseph Colombo.

Shortly after this theft, captioned source was contacted by LCN member Charles Panarella, who advised that he was in contact with two narcotics addicts who were responsible for the theft, and it was desired that source handle the disposition of the jewels. Source immediately discussed this situation with contacting Agent and a plan was advised whereby these jewels could be returned to the church without jeopardizing the security of the informant. New York advises that contact was made with Acting Capo Alphonse Persico concerning the theft of these jewels and his assistance requested in having them returned. Persico met with several LCN leaders and then prevailed upon the source to have the jewels returned to the satisfaction of all LCN people involved. The jewels were placed in a public locker, and the New York Office advised. Following recovery, they were turned over to local authorities. The FBI received wide acclaim for the recovery of these jewels.

Captioned source is a highly placed member of the Colombo "family" of LCN who has been a top echelon informant since 1962. He is [] most outstanding member informants and has furnished throughout the years outstanding information relating to organized crime matters.

Re:

OBSERVATIONS:

Although this investigation was not a substantive violation directly under the jurisdiction of the Bureau, our efforts in the recovery received widespread publicity and certainly did enhance the reputation of the Bureau as to its widespread sources and abilities to handle major matters of a diverse nature. There can be little doubt that without the assistance of captioned source, we would not have been in a position to recover the jewels both from the standpoint of knowledge of their whereabouts nor to the manner in which the recovery was brought about. It is, therefore, felt that some remuneration should be made to captioned source for his efforts in this investigation. Informant has not been paid to date for this particular information (per New York phone call 4/12/73), however, he receives as a regularly paid informant. However, inasmuch as this was not a Bureau violation, nor any arrests made, it is felt that would be sufficient remuneration for the efforts of the source in this matter.

NY DIVISION

ReNY LHM, dated 7/2/73.

The following summary of information is being set forth to reflect that the captioned source, a member of the COLOMBO "family" of LCN, has again begun furnishing valuable and detailed intelligence information as well as other information of a substantive nature re high level LCN activities. This informant has been contacted since 6/14/73 by the former alternate agent, & it is felt that his revitalization will shortly reflect, once again, the invaluable nature of his information.

On 5/28 & 6/1/73, source furnished the following information:

THOMAS DI BELLA
AR
NY 92-2723

Source advised DI BELLA continues to be Acting COLOMBO Boss and his medical condition has stabilized. Source knows of no specific meetings that DI BELLA has called or attended in past several weeks although DI BELLA complained to AL PERSICO recently about recent Grand Jury inquiries by the Feds.

CHARLES "MOOSE" PANARELLA

Informant related approximately 5/22/73, PANARELLA had met with his "crew" at which time he proposed that the group begin a shylock business with all the members of his crew making voluntary contributions and that this business would be operated by GREGORY SCARPA. Informant continued that PANARELLA stated that no shylock loans should be extended to "dead beats" but that the loan operation attempt to attract legitimate businesses as customers so that in the event payments were not made it would be an excellent opportunity for the PANARELLA crew to get its foot in the door and have a "legit"

front. PANARELLA again instructed that the COLOMBO "family" should not engage in prostitution, narcotics, counterfeiting or securities and should also avoid becoming involved in hijackings. PANARELLA stated that in the absence of legitimate business interests about the best illegal enterprise at present for them to engage in would be gambling, since the FBI has apparently lost interest in gambling investigations. PANARELLA was perplexed as to why the Government dropped their gun case against him. In a way he was annoyed he did not go to trial because he feels he would have beaten the case and now there may be whispers that he is an informant especially since his "rap" partner, ALLEY BOY PERSICO, is still facing charges.

[redacted] Informant heard that shortly after this, the word was out that the COLOMBOs would try to "get the GALLOs" especially in view of the fact that [redacted] had killed a COLOMBO sympathizer. Informant said this information had not been put out officially and that apparently [redacted] desires that they "cop a sneak" and avoid an open-type warfare with the GALLOs.

ALPHONSE PERSICO
AR
NY 92-6703

Informant advised he recently learned that PERSICO has become enraged over the fact that MIMI SCIALO apparently has recruited four young "tough guys" who SCIALO has been using for his "dirty work". Allegedly, SCIALO has refused to reveal the identities of these individuals to the "family" and PERSICO suspects that possibly SCIALO, after PERSICO's conviction and return to prison, may attempt to take over the COLOMBO "family". Informant said that PERSICO continues to operate his gambling interests from Downtown Brooklyn but had apparently suffered a financial setback when a number hit that has been heavily bet upon.

b6 -2
b7C -2

Informant advised that [REDACTED] have been taken away from under the control of ERNIE LA PONZINA and JOE LANE and have been put in MIMI SCIALO's crew.

Source stated that the official position taken by the COLOMBO "family" now is to have nothing whatever to do with the Italian American Civil Rights League. ALPHONSE PERSICO told the source that this was in the way of a peace offering to the Bureau so as to make amends for the outrages of JOE COLOMBO.

Source heard that JOE JOE BRANCATO controls a large book-making operation of which source will attempt to secure more details. He also heard that JOE YACOVELLI is definitely around the NYC area living as a hippie in the Little Italy area and not venturing out to attend any meetings, weddings or wakes.

BLACK SAM NASTASIA recently was in the hospital and had an operation.

Source characterized DUKE SANTORO as a one shot swindler who did not really have any illegal operations currently going but was always waiting for that one big score like in the Mobil Oil situation.

Source heard that ROCCO MIRAGLIA and JOE IANNACI have been placed under the control of CHARLIE MOOSE PANARELLA. Informant further heard that ERNIE and TONY LA PONZINA have been trying to move into several areas of activity with the backing of PANARELLA. MIRAGLIA is supposedly working in construction somewhere in Staten

CLEMENTE-855

Island and enjoys very little respect or status in the COLOMBO "family" as now constituted.

Informant characterized the following crew captains or members as the most active in the COLOMBO "family":

CHARLIE PANARELLA
DOMINICK "MIMI" SCIALO
JOSEPH BRANCATO
ALLIE BOY PERSICO
FRANK LO CICERO

Source stated that SALVATORE LOMBARDINO has taken over the New Jersey crew of the COLOMBO "family" and the remnants of the old YACOVELLI crew in NJ. Source stated that SALVATORE PROFACI, JR., SALVATORE J. PROFACI and the other LOMBARDINO brothers are COLOMBO members in this crew.

Informant advised that CHARLIE MOOSE PANARELLA has a hidden ownership in a beauty parlor located next door to the Continental Men's Hairstyling Shop on Manor Road, Staten Island.

Source also advised that NICKY BIANCO has been officially transferred to the New England "family" and is operating out of the Providence, Rhode Island area.

With regard to the GALLO - PERSICO feud, source noted that a definite peace has been established and that there is to be no more antagonism displayed on the street toward the GALLOs including MOONEY CUTRONE. Source advised that AL GALLO was never made a member and he was of the opinion that CUTRONE would be killed in spite of the above, eventually.

Source stated that there have been no formal captains meetings in the "family" recently although there have been several informal get togethers where "family" business has been discussed at recent weddings and wakes such as the wake for COLOMBO member RALPH LA PONZINA.

On 7/20/73, source was contacted specifically with regard to providing a thorough and current hierarchy in the "family" as well as an exhaustive breakdown of all active LCN members and their respective associates in the various regimes of the COLOMBO "family". In a lengthy session, source identified photographs of surveillances in the past year and commented on current illegal activities of virtually all the active members and associates which he had earlier delineated.

In addition, this source has furnished information with regard to hoodlum figures in SI, NY, who have been bilking the Small

Business Administration of the Federal Government through fraudulent loans made available as a result of recent storm and flood disasters. This information corroborated by information from other sources has formed the basis of a new project which, to date, has identified approximately 30 LCN connected loans, including loans with good prosecutive potential on 17 LCN members of the various NY "families".

This informant has furnished no information known to be false, and he has shown no indication of emotional instability.

It is felt that he will continue to be an extremely valuable source of the NYO.

Source advised in May, 1973, and confirmed this information on June 21, 1973, that the new COLOMBO leadership was absolutely going out of their way to dispel any factionalism or ill feelings between the COLOMBO group and the GALLO clan. A series of sitdowns has culminated in a pact in which even JOHN "MOONEY" CUTRONE, who was marked for sure death for his defection to the GALLOs, has been seen again in the company of COLOMBO people in the Bay Ridge Section of Brooklyn.

This informant was contacted on three occasions by the alternate agent. He is believed to be emotionally stable and reliable, having never furnished any information known to be false. Informant's information has been corroborated through independent investigation and through other top echelon informants of the New York Office.

ReNewark telcall to New York 10/9/73.

An individual who identified himself as GREGORY SCARPA telephoned the SAC, Newark, 10/9/73 and spoke to the SAC, calling him by name. SCARPA in a very belligerent attitude said he wanted to put me on notice that what had appeared in the paper pertaining to the FBI would be nothing compared to what he is going to do to embarrass the Bureau. SCARPA said he is going to reveal everything, scheme and technique, imaginable pertaining to the FBI because of what was being done to him. SCARPA was asked who he is and the purpose of his call, and he replied that "I damn well know who he is."

179-1996-
With further conversation it was established he was calling from Brooklyn pertaining to a fraudulent bond case which is apparently identical with captioned matter. SCARPA said he understood it is my responsibility that he is involved in this matter and said he felt that there should be a sitdown to talk over the situation as to what can be done since he is innocent. His attitude was most demanding and bordering on being threatening. I specifically asked if he was trying to intimidate me by making

GREGORY SCARPA was contacted on 10/9/73, and was advised that the pending ITSP investigation of which he was aware could result in an indictment in the near future, and that now would be an opportune time to provide any further facts or evidence if known. SCARPA became extremely upset and stormed away from contacting agents. The following morning, 10/10/73, SCARPA contacted the NYO advising of his call to SAC NK (noted in re airtel) whose name he had seen previously in a newspaper. SCARPA explained that he had lost his composure following the revelation that he would be indicted for a crime he claims he did not commit, particularly in view of his relationship with the Bu for many years. SCARPA apologized, asked that this apology be conveyed to SAC NK and stated that he would continue his prior relationship with the Bu regardless of the outcome of this prosecutive proceeding.

SCARPA reiterated, however, that the delicate position he is in within the COLOMBO Family as related in reNYteltype would lend credence to his fellow Mafiosi that he is cooperating with the law should he "beat" any case. SCARPA suggested his only alternatives are a guilty plea with jail time or a pre-indictment polygraph.

NOTE: Captioned source has been a top echelon informant of our New York Office since March, 1962. He is a highly placed "member" of the Joseph Colombo "family" of La Cosa Nostra (LCN) and was formerly a regularly paid informant. The information furnished by this source has continued to be of the highest level concerning LCN in New York City. This source has identified an individual involved in the theft of some crown jewels and the fact that he is suspected of doing a lot of talking to the New York City Police Department. Source indicated that New York hoodlum Charles Panarella may have this individual killed if and when he is released from jail. Source advised that Dominick Scialo was "hit" because he had become a liability to the "family." Source stated the "family" became aware that Scialo was undergoing psychiatric treatment. Source identified an individual attempting to sell 200 revolvers. Source advised that the Persico people have moved in and now control all private carting into the Navy Yard since the City of New York had taken over this Navy Yard. Source indicated that the Persico faction is now in control of the Colombo "family" and has aligned itself closely with the Genovese "family." This has led to speculation on the part of some that the two "families" would be merged. This source has provided voluminous information concerning other LCN activities and it is recommended that request of SAC, New York, be approved.

b7C -2

On January 31, and February 6, 1974, source was contacted regarding the recent turmoil and possible new developments in the COLOMBO "family" with regard to leadership changes. Source stated that MIMI SCIALO was definitely killed on a contract given by HARRY FONTANA and the okay was given by CARMINE PERSICO. Details were furnished in a prior contact with source reported earlier. Informant commented that the LAMPASI incident was merely the straw which broke the camel's back; that other "families" notably, CARLO GAMBINO and FUNZY TIERI, had complained about SCIALO's attitude and past activities also.

Source stated that PAUL D'AMICO is Acting Captain of MIMI's crew, [redacted] but that D'AMICO is not a threat to the leadership. He is not a "heavy" and relatively in poor health. He is retired and well along in years. He stated that the members who are assigned to the SCIALO crew will remain under D'AMICO but that the other significant associates such as [redacted] would be temporarily assigned to CHARLIE PANARELLA's crew. Informant noted that [redacted] at one time prior to SCIALO's elevation to Captain, [redacted] HARRY FONTANA when FONTANA was still an active Capo in the "family". Source advised further that PANARELLA is extremely ambitious and sees this as an opportunity to eventually become the Underboss or Consigliere of the "family".

b6 -2
b7C -2

Informant noted that MOOSE is already "talking like a Consigliere" and mediating disputes when before he would say "go whack that guy around" or take some other drastic action.

Source stated that SALLY ALBANESE is definitely not acting or sitting in for ALLIE BOY PERSICO, but has been assigned to ABBY ABBATEMARCO since ABBY is now the Underboss and should have somebody to do his bidding as source characterized.

Source stated that the "family" will not be taken over or broken up into other "families" but that with the PERSICOs facing possible undetermined jail sentences, DIBELLA and ABBATEMARCO, under the wing of CARLO GAMBINO and FUNZY TIERI, see this as an opportunity to firmly seize control of the "family" and keep it together.

JOE BRANCATO is not interested in a position of leadership other than Captain with the Long Island crew but that JOE is no "pushover" having been the only remaining Captain from the old COLOMBO lineup who took a stand against the PERSICO and ALOI crowd when he was asked to resign his position along with ROCKY MIRAGLIA and NICK BIANCO.

Informant stated that PANARELLA through JACKIE DE ROSS is getting more involved in unions, particularly the Bartenders and Restaurant Employees Unions, and periodically makes a trip to Washington, D.C., to contact someone unknown to source. PANARELLA is leaving on a trip to Washington within the next several days, and is currently employed on the construction site where ROCKY MIRAGLIA "works" in Staten Island.

Informant is of the opinion that DI BELLA and ABBATEMARCO went to consolidate the "family" and will probably put more old timers in positions of authority, but that they do not want there to be any "challengers" such as MIMI or ALLIE BOY around.

TONY PERAINO remains very close to TOMMY DI BELLA and spends a great deal of time in Brooklyn and Staten Island, although still maintaining a residence in Florida. PERAINO is having considerable marital problems with his wife, who remains at the Florida residence.

Source stated that last week [REDACTED]

[REDACTED] had a meeting at the Sorrento Restaurant on Fifth Avenue in Brooklyn around 85th Street.

GREGORY SCARPA
AR
NY 92-2657

b6 -2
b7C -2

On February 6, 1974, source stated he had heard that a load of 7,200 professional style hairdryers was being peddled in Brooklyn and that people under GREGORY SCARPA had purchased one-sixth of the load or 1,200 pieces for \$5.00 each and were selling them for \$10.00 each.

Source advised that three individuals, whom he characterized as very big swag movers had control of this load and had broken it up in five or six parcels. He identified these individuals as [REDACTED] LAST NAME UNKNOWN (LNU), [REDACTED] FIRST NAME UNKNOWN (FNU) [REDACTED] and a third individual whose name was unknown to source.

b6 -2
b7C -2

Source stated these individuals work out of Kelly's Bar at 69th Street and New Utrecht Avenue in Brooklyn and are currently offering two other loads: a load of cigarettes and a load of sewing machines. Source is of the opinion that one of these individuals may be an informant for the New York City Police Department (NYCPD) Safe and Loft Squad since they both had several arrests by the locals and seem to continue to operate with impunity especially considering the fact that they are not "connected" with any La Cosa Nostra (LCN) figure or group.

ANTHONY ABBATEMARCO
AR
NY 92-2588

Source advised on February 7, 1974, that ANTHONY ABBATEMARCO currently is engaged in overseeing a large numbers and sports gambling operation involving primarily black and Puerto Rican areas of South Brooklyn. ABBATEMARCO has been in this business for approximately 15 years and is assisted in coordinating the administration of this operation by SALVATORE ALBANESE, a close associate of his, and of ALPHONSE PERSICO. ABBATEMARCO handles much of his business of meeting and directing principals in his operation, including ALBANESE and his major black controllers in his own personal vehicle. ABBATEMARCO conducts this business while moving around in his personal auto so as to circumvent efforts by law enforcement to overhear his conversations or effectively surveil him.

This source has been contacted on two occasions by the alternate agent and his information has been corroborated through other reliable top echelon informants of the New York Office. He is believed to be emotionally stable and reliable, having never furnished information known to be false.

The individual murdered was named (First Name Unknown)(FNU) COCCHIO, a kid who was murdered about 10 years ago at the request of JUNIOR PERSICO to JOE COLOMBO who ordered the hit. Source heard that COCCHIO apparently had killed a relative of PERSICO in a bar fight. COCCHIO was grabbed off the street in Bay Ridge by NICK BIANCO and GREGORY SCARPA who administered a severe beating to COCCHIO. COCCHIO was then taken to the garage adjacent to JOE IANNACI's residence on Bay 10th Street, Brooklyn, where source heard he was killed by DUKE SANTORO with one bullet in the head. The body was put back in BIANCO's car and delivered to PERSICO's crew downtown, who in turn apparently buried the body in the basement of the social club. (New York City Police Department (NYCPD) advised of identity of body.)

Source heard that [redacted] recently released from Danbury Prison is the subject of a sit down between CHARLIE MOOSE PANARELLA, his Captain, and JIMMY BROWN FAILLA, representing CARLO GAMBINO. [redacted] operation had been taken over by GAMBINO's people while he was in prison and [redacted] and PANARELLA feel that it should be returned to the COLOMBO Family. Source also heard that [redacted] was called in by PANARELLA to explain his part in the recent securities indictment which the FBI obtained against [redacted] and others.

Source heard that TONY LA PONZINA is dealin in swag and that MOOSE PANARELLA is pretty much staying on his own in and around his work site in Staten Island after having put out the word for everybody to stay away from him because of the FBI's investigative pressure.

The word on the street is that the PERSICO faction is "out" in COLOMBO power circles and that JOE BRANCATO appears to be the low key figure the Family has been seeking as a leader for several years. MOONEY CUTRONE is back in the fold and is assigned unde [redacted] Source heard also that ANDREW RUSSO is moving very big on Long Island in many legitimate ventures and that RUSSO is quite close to JOE BRANCATO also.

Source advised that a young hood nicknamed [redacted] [redacted] has been handling counterfeit \$100 bills out of the Starlight Bar and Grill at 13th Avenue between 69th and 70th Streets, Brooklyn. Source stated this was a bar [redacted] Source knows of no further specifics with regard to this operation.

(Above was disseminated to United States Secret Service, November 4, 1974, by the writer.)

On January 2, 1975, source stated that ALLIE BOY PERSICO spends quiet drinking evenings in the Regis Room of the St. Regis Hotel in Manhattan where he claims no one "knows" him.

Source stated several COLOMBO members "have the feeling" that JOE YACOVELLI is definitely influencing family policies although remaining in the background. It is an La Cosa Nostra (LCN) axiom, according to source, that a member retires or gives up his position as Consigliere he cannot be reinstated.

Source advised further that GEORGE TROPIANO was attempting to get approval from Acting Boss JOE BRANCATO to have a "witness" hit.

Informant advised he heard that CHARLIE "MOOSE" PANARELLA had a Christmas party for his entire crew one night the week of December 15, 1974, between 6-10 PM at the Casa Storta Restaurant in Brooklyn. ALPHONSE PERSICO attended with some of his crew. Both "goodfellos" and associates attended this almost purely social gathering. JOE GENTILE, ERNIE and TONY LA PONZINA were not present citing the ongoing Internal Revenue Service (IRS) trial in Federal Court. PAPA DICK FUSCO did not attend. Two former underlings of MIMI SCIALO who are now with PANARELLA attended by the names of [redacted] (phonetic)(ph) and [redacted] a bookmaker (who was involved in the COLOMBO numbers case 182-120 according to source).

They feel they can persuade other COLOMBO members, [REDACTED] to back their venture and to use their influence in the business as well as their distribution system. Source heard further that these COLOMBO hoods have their "in" through JOE LANE who is very close to a wealthy widow involved in this firm.

GEORGE TROPIANO
AR
NY 92-2656

On December 20, 1974, source was contacted also regarding GEORGE TROPIANO and his relationship to CHARLES PANARELLA. Source stated TROPIANO is very lightly regarded and has no crew and is really in the words of source a "nothing guy" who is not capable of directing any heavy work such as major thefts or contract killings.

Source has been contacted on two occasions by the alternate Agent. He continues to be reliable and emotionally stable.

Information furnished, where possible, has been corroborated through other sources or independent investigation.
